INGROWN NAIL

Turns Right Out Itself

A few drops of "Outgro" in the crevice of the ingrowing nail reduces the inflammation and pain and so toughens the tender, sensitive skin underneath the toe nail, that it can not penetrate the flesh, and the nail turns naturally outward almost over night. "Outgro" is a harmless antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions.

If you are a dainty woman you will be interested to know where you may have your garments renovated in the most sanitary up-to-date manner, in other words, Crystal Methods.

If you are a fastidious man then you will want your clothes handled by the most up-to-date, fastidious and careful workmen. Our motto is "Quality Work and Service."

Pan-Hellenic Members
Complete Plans For
Benefit Bridge

Greek letter sorority girls from all over Orange county were bidden to the delightful gathering of the Pan-Hellenic society Monday night at the spacious George L. Briggs home on North Broadway, where hostess honors were shared between Mrs. Howard Timmons (Marie Briggs) Mrs. William L. Deimling, Mrs. Robert Northcross and Mrs. Maurice Enderle.

It was regretted that the president, Miss Helen Walker was unable to be present but Miss Beatrice Cartwright presided in a most capable manner and an extremely interesting business meeting was held immediately after the arrival of members and guests.

The outstanding feature was the plan for a big spring benefit card party for which the date of Saturday, May 9 was selected. This will be a double event with bridge as the principal game and the afternoon tables reserved for fair femininity while the evening party will be for both men and women. The first floor of the Charles L. Davis home at 1813 North Broadway will be arranged for the event and committees were named at the Monday night meeting, to complete all details of entertainment.

Miss Marjorie Ellis will head the committee on general arrangements and will be aided by Miss Edith Hutton and Miss Helen Randall. Miss Violet Wieseman and her committee will arrange for punch; Mrs. Sterling will plan the prizes; Mrs. Howard Timmons will provide cards and Miss Eleanor Sturgeon will assume responsibility for the ticket sale.

Following the discussion of party details, the hostess group at Monday night's meeting, introduced bridge as the entertaining feature of the evening and attractive prizes were won by Mrs. Harry Westover scoring high and Mrs. Warren Fletcher, scoring low. Dainty table prizes won by the players scoring high at each table added to the interest of the event.

At a late hour the hostess quartette arranged the card tables with immaculate linens, centered each one with velvety pansies and served the daintiest of sandwiches, cake and hot chocolate.

**Carefully Planned
Was Surprise on
Birthday Host**

Carefully planned by a little group of friends, a birthday surprise of Monday night when A. W. Rimel was honored at his home, 831 South Ross street, was a pleasant affair long to be remembered by hosts and guests alike.

In planning the event, a close friend of the family, Charles Dunbar, asked Mr. Rimel to accompany him to church services thus leaving the coast clear for the conspirators who took possession of the home where in darkness they awaited the return of their host. The lights were disconnected and the guests were highly entertained by Mr. Rimel's difficulties as he feared a fuse had burned out. Finally stumbling through the darkness to the dining room he found the lights working perfectly and in their sudden blaze, discovered plotters ready to shower him with birthday wishes.

As the pleasant evening progressed, Mr. Rimel was given another surprise when Mrs. Rimel took her place at the piano and the two young people of the home, Miss Doris playing the violin and Jack playing the cornet, formed quite an orchestra which played several most pleasing numbers. Unusually beautiful roses and sweet peas adorned the home, the guests arranging the flowers as part of the birthday greetings. After a happy evening of music and friendly chat, Mrs. Rimel assisted by Miss Lulu Rimel, sister of the host, served a dainty two-course supper.

Many handsome gifts were showered on Mr. Rimel by the guests who included Messrs. Buchanan and James Givens of Compton; Charles Goff and Jeff Davis, Long Beach; John Eader, E. P. Berner, E. A. Rimel and daughters June, Fay and Fern of Huntington Beach; Charles Dunbar, Bob Nelson, Roy Browning, W. E. Rimel, Dr. and Mrs. John McAuley and the members of the family group, Mrs. Rimel, Miss Lulu Rimel and little Miss Doris and Master Jack Rimel.

Ninety per cent of India's population cannot purchase anything but the bare necessities of life, says the department of commerce.

BOND ISSUE OF \$1,200,000 FOR HARBOR ADVISE

The Orange county harbor commission today had filed with the board of supervisors recommendations that Orange county harbor be completed upon a commercial basis; that a bond issue of \$1,200,000 be submitted at once to the voters, with immediate sale of bonds in sufficient amount to establish the entrance, and sale of the balance as money is needed and as commercial development warrants.

The anticipated report of the commission was presented to the board late yesterday afternoon by H. A. Lake, chairman of the commission, and the board set May 12 at 2 p. m. as the date for a public hearing on the report. At that time the supervisors will either accept the report, reject it, or refer it back to the commission.

Establishment of a permanent entrance will involve the expenditure of \$450,000, according to the report. The items include \$180,000 for construction of an east jetty; \$40,000 for repairs to the present jetty on the west side of entrance; \$30,000 for revetments and \$200,000 for dredging a channel 300 feet wide and 25 feet deep at the entrance to the first turn in the channel.

Outline Proposed Work
Other items making up the grand total of \$1,200,000 are as follows: To repair possible setting of east jetty after it is constructed, \$50,000; dredging area at the first turn in the channel, \$20,000; dredging the county channel across the bay to 25 foot depth, \$265,000; deepening turning basin, \$40,000; wharf and equipment, \$25,000; anchorage areas (70 acres), \$140,000; engineering expense, \$100,000; maintenance, developments, emergencies, \$110,000.

In his final recommendations to the commission, General Lansing H. Beach submitted items of cost that totalled \$1,365,000. The commission cut the total by elimination of \$100,000 for a belt railroad and by cutting \$65,000 from Lansing's estimates for maintenance, developments and emergencies.

Agree On Program
"Your commission is now agreed on a program of development which calls for the opening up of Newport bay on a commercial basis," says the report.

"Experience has shown in a program of this nature that the margin allowed for unexpected conditions should be ample, and your commission urges the full amount called for in the program be asked for in the bond issue.

"It is the plan of the commission to complete the proposed entrance work first, and thereafter, to ask for the sale of authorized bonds only as needed and as commercial development warrants."

The report is signed by all the commissioners, H. A. Lake, F. L. Ainsworth, James Irvine Jr., E. T. McFadden and R. J. McFadden. The report is based on the recommendations of General Beach, former head of the U. S. Board of army engineers, and recognized as one of the best authorities on harbor building.

Allow For Growth

In his report to the commission, the engineer says: "Your plan should include several important features: (1) It should constitute a complete operating unit of sufficient size to handle business as it develops; (2) It should be so planned that its enlargement will be simple and governmental aid can be consistently asked and expected for its extension and additions; (3) It should be amply financed so that any slight change of plan, or additional work, or unexpected repair can be taken care of without delay."

Discussing the east jetty, the consulting engineer says that the distance between the shore ends of the east and west jetties should be 900 feet and that the distance between the outer ends should be 600 feet.

He says that the east jetty should rise 10 feet above high tide and have a slope of one on two—that is the channel side should slope from the jetty to avoid possible undermining of the structure. Cataline rock is recommended for "heating" the jetty.

May Need Longer Jetties

"It is impossible, without extended observations and study of the ocean currents in front of the harbor and of the sand movements, to state with any degree of certainty what will occur at the entrance after the second jetty is built," Lansing says. "It is not impossible that the jetties will have to be extended if they are to be maintained, without dredging a depth of 25 feet at all times. However, it is not unlikely that by the time this fact is developed by experience, should it develop, government assistance can be secured."

Building of the east jetty and repair of the west structure are recommended as the first steps in the harbor improvement, should the bonds carry.

Continuing, General Beach, in his report, says:

"At the present time your main channel is closely occupied by shallow-draft boats, and in order to give free use of the channels it is necessary to remove these boats to anchorage areas, which should by all means be provided. It is not economy to have the movements of cargo-carrying boats which are confined to the deep channels, hampered or obstructed by small boats which can be accommodated elsewhere at relatively small expense."

Need More Anchorage
More ample anchorage should be provided for fishing boats, of which there are many in the bay, and more are ready to utilize the harbor when anchorage and other accommodations are provided.

"While it would be the part of wisdom to wait until definite lines of business are established in order to know exactly the type of wharf and equipment needed, some additions to the small wharf already built might be made. I

would recommend extending this wharf to a length of 300 feet in order to accommodate one average sized vessel, with some provisions for derricks, or a movable derrick or crane, and a small storehouse."

"Plans for utilizing the upper bay should be known to your commission in order that proper development of the areas north of Stations 100 and 130, at least as far as the state highway bridge may be undertaken. In this connection I recommend that you order a careful study of the lagoon to be made at an early date. Its logical use is either as a water park, should the vicinity develop a population which would justify such disposition, or else as an industrial harbor."

Cheap Land Is Needed

"There is a tendency at the present time for large corporations and manufacturing concerns to seek localities outside the large cities, and considerable distances from them, provided the transportation facilities of the locality are adequate. Cheap land, both for the plant itself and for the employees, is often a determining factor in the selection of a site when other conditions are approximately equal between localities. In case the upper lagoon is utilized for such a purpose, the channel should be made with as few curves as possible and so located as to provide as much reclaimable land on the sides as the configuration of the lagoon will permit."

"By developing progressively from the lower bay towards the head of the lagoon, it is possible that concerns considering locating here would do much of the work of reclamation themselves in return for a grant of land desired for a factory site or for a sale at such a figure that the price, combined with the cost of the reclamation work, would make the acquisition of the land reasonable. Or the reclamation might be made by the county and the proceeds of sale applied to the cost of improvements of the bay, or otherwise, as might be found most advantageous at the time."

**Oswald Orchestra
To Play at Dance**

Giving Santa Ana people their first chance to dance to music furnished by the famous Glen Oswald orchestra of 12 pieces, announcement is made today of a dance to be given at the Santa Ana American Legion hall, Birch street, Friday night. Oswald's musicians have for the past number of years made Victrola records, and are considered one of the best orchestras in the country. They have been in Los Angeles for several months and members of the Legion dance committee have been trying some time to book them for a dance here, according to R. E. Walker, chairman.

You And Your Friends

Please Phone or Mail Items

Mr. and Mrs. H. T. Trueblood, 516 South Main street, have gone to Elsinore for a short time.

Mr. and Mrs. J. W. Mitchell, 611 Garfield street, are occupying their cottage at Laguna Beach, where they may remain for several weeks.

Mr. and Mrs. R. Z. Ballard, 730 Hawley street, went to San Diego today to visit Mrs. Ballard's father, Charles G. Rowan, who is in that city for a short time.

Mr. and Mrs. Charles R. Reynolds of Canton, South Dakota, who have been spending the winter in California, are guests of Mr. and Mrs. Timothy Jellison, 1011 North Van Ness avenue. Mr. Reynolds is a brother of Mrs. Jellison.

Mrs. Pearl Barnes Carroll, Miss Edith Barnes and Miss Clara Pittman, who have been spending the winter here, left today via Union Pacific for their home in Sullivan, Indiana.

Joseph Huarte of Anaheim and J. B. Arambel of Orange left today on the Union Pacific for Peoria, Illinois, and from there will go to Cedar Rapids, Iowa, to play with the Cedar Rapids baseball team.

Mrs. Hardin, wife of a physician of Moberly, Missouri, arrived Saturday and is visiting at the home of William Williams, 1110 Spurgeon street.

After an absence of two months spent in Los Angeles with Miss Viola Burgess during the absence of the latter's father on an extended eastern trip, Miss Roberta Dawes has returned to her home at 1413 Spurgeon street and is receiving a warm welcome from her many friends of the younger social set.

Mr. and Mrs. Albert Mason of 1704 West Ninth street have had the pleasure of a week-end visit from their sister, Mrs. N. M. Baumgartner of Los Angeles, and cousin, Mrs. Sylvia Benson of Chicago.

Mr. and Mrs. F. A. Snyder, of Rochester, Minn., are guests at the home of Mrs. J. F. Lamp, 695 North Batavia street, Orange. Mrs. Lamp and Mrs. Snyder are sisters. The attractiveness of Orange county is receiving favorable comments from the visitors. Mr. and Mrs. Snyder have been passing the winter with their daughter, who is a school teacher at Lyle, Wn.

Parent-Teachers Assn.

City Federation

An executive board meeting of the city federation of the P. T. A. to be held Friday afternoon at 2 o'clock with the president, Mrs. Harry Leipsic, 1905 North Main street, promises much of interest to the board members, all of whom are expected to make it a point to be present.

Julia Lathrop
At the meeting of Julia C. Lathrop P. T. A. tomorrow afternoon at 3 o'clock, in the rotunda of the school there will be the usual splendid program from the school, under the supervision of Miss Edith Cornell, and a talk from Miss Nancy Elder, who has recently accepted the position of Y. W. C. A. secretary in Santa Ana.

Miss Elder has a special message for all mothers of girls in the 'teen age, and mothers are urged to be present that they may acquaint themselves with the Y. W. C. A. program for the coming vacation time. Election of a nominating committee of officers will be held and a round table discussion on the place of the P. T. A. in the school, will close the program.

Finland has become the largest timber exporting nation of Europe.

Correct Clothes To Meet The Obligation Of Every Occasion

ITS GRIP WON'T SLIP

To declare that the golfer's feet are always on his mind may be a questionable joke, but it is an unquestionable truth. In Scotland, which disputes with Holland the distinction of being the cradle of the "golf and game," it is proverbial that before you look to your stance and swing, you must look to your shoes. In view of the worldwide devotion to, yes, almost the passion for, golf today, it is difficult to believe that the Scottish golfer is not a golfer at all. It is a composition substance tougher and springier than rubber alone. It grips the ground fixedly and virtually cannot slip. It lends what the golfer terms stance, the attitude assumed when making a stroke. It is long-lasting, water-proof and not prone to irritate or overheat the foot. The English crepe rubber sole shoe is not, of course, the only practical one for the game, but it has been accepted as the nearest approach to the perfect golf shoe, because it has the grip that won't slip.

Golf shoes must be kept in prime condition when off the feet, or they will not give satisfactory service. No, in use, they should be thoroughly wiped to remove dirt and then "treated" over a wooden last or form. Do not put wet shoes next to a stove or radiator. That causes them to become stiff and rough and makes them crack. Dry them in the open air, for leather, to last and remain soft and resilient, must absorb moisture. Occasionally, rub a little oil on.

The Blucher type of golf shoe, shown here, is reviving in favor, because it has a more rugged, sportsmanlike look than the conventional plain pattern. Leather things are preferable to cloth laces. Do not fasten your shoe tightly. This binds the instep. See that it is roomy enough to permit of being in good use. If you screw calks upon the soles are not as much in use as formerly, because, in the first place, they mar the turf and, secondly, they have become unnecessary.

Mountain-grown! Fragrance—full! One cup proves it all!

DISTINCTION BETWEEN GOOD AND BAD BOOK ABLY DEFINED BY REVIEWER IN CLUB TALK

"Every book has a spirit of its own that reflects its author to the discriminating reader," last night declared Mrs. Frances Neill, assistant librarian at the high school, in prefacing a review of a group of recent novels for the benefit of members of the Book Review club, at the E. M. Nealey home, on Glen avenue.

Dr. Elliot's famous five-foot shelf of books had its counterpart in the shelf of fiction which Mrs. Neill analyzed and discussed during the course of a most interesting evening. Her short talk before taking up the first of the group, offered her own ideas as to what constituted a good book or a bad one. In a graphic simile she drew a picture of the moral effect on soldiers equipped for a battle were they told that the battle was hopeless from the beginning and no particular issues were involved anyway, and then applied the lesson to the younger generation entering upon the battle of life, with the ideas of what that life may hold as offered by the gloomy, pessimistic books which many popular but disillusioned authors offer.

Defines Bad Books

"Those are what I call the bad books," continued Mrs. Neill. "Their influence takes the fight out of one. Such materialists as Dreiser, Lawrence, Mencken and Sinclair Lewis sneer at worthwhile things and youth is naturally affected by it. To me, the authors have lost the sense of immortality and are so convinced that life is so fleeting at best—and ends with the grave, that their whole out-put is colored and distorted by their views."

Mrs. Neill had arranged her books for reviewing in the order in which she found them most interesting and opened with Anne Douglas Sedgwick's "The Little French Girl," which she dwelt upon with evident delight in the author's smoothness of technique and rich powers of description. A brief sketch of Mrs. de Selincourt (the married name of the author) emphasized her ability to write with knowledge of both France and England because of her childhood and early youth having been spent impartially in the two countries. The freshness and charm of the book were so strongly emphasized to the Book Review members that those who were familiar with it found their interest revived while those who had not yet read it, were eager to do so at once.

Discusses War Novel

From the cheer and buoyancy of "The Little French Girl" to the general gloom of "Plumes" (Lawrence Stallings) was a far cry but this war novel which yet has so little of the World War in it, evidently fascinated Mrs. Neill who hoped to arouse a lively discussion which might perhaps offer worthwhile ideas for suppression of the instinct for war in children.

In the hero of the book, Mrs. Neill professed to see a biographical counterpart of the author who experienced some of the heaviest fighting of the World War, and returned to civil life minus a leg. "There are men in prison today for saying what Stallings has said in this book," she declared. "The only difference is that they said it too soon. What are we going to

do about war when as each generation grows up, the horrors of war are lessened and only the glory remains for them to consider?"

Michael Arlen's "The Green Hat" was next on the list and was designated by the reviewer as a remarkable book with not a single character in whom badness predominated over goodness. A reading of the book left one with the feeling that life's nobility was greater than its weaknesses, hence moral lessons were of the best despite the fact that "Iris," leading feminine character in the book, is accepted as an immoral person.

Admitting the charm of gentle satire, the reviewer could see no value to be gained by the pronounced cynicism of "Arrowsmith" by Sinclair Lewis, declaring that a profession so valuable as medicine, needed no satirical arrows directed against it. "Why waste time satirizing things which are not nearly so bad as they might be?" she queried, waxing gently satirical herself as she declared it was easily seen which of his woman characters Lewis really admires because those were the ones quietly asked to a secret place to have a drink.

Endorses "Sard Harker"

"Sard Harker," Masfield's latest book was endorsed enthusiastically for its vivid narrative and powers of description. A wonderful book to place in the hands of youth was one of the least of the excellent recommendations given it by Mrs. Neill. Mary Johnston's "The Slave Ship" was named as an interesting historical novel imbued with the author's well known mysticism and emphasizing two special points, the fact that slavery is not confined to the black race and the idea of unity and oneness with the world.

Following her extremely illuminating talk was a discussion which is always an enjoyable phase of Book Review meetings. Most of the talk centered in "The Green Hat" and "Arrowsmith" since several members differed radically from the reviewer in her opinions of both books. As always, the differences of opinion were most friendly and gave added zest to one of the most interesting evenings of the club's year.

The Rev. Fred Staff, former pastor of the Congregational church, is to have the May program which will conclude the year. The Rev. Mr. Staff will announce his subject later.

Snap-Shot Day to Be Observed at School Tomorrow

Taking of snap shots will be the order of the day at the Santa Ana polytechnic high school tomorrow, when students with batteries of cameras are to take pictures of friends for printing in "The Ariel" school annual publication.

Prizes are offered for the three best snap photographs. Winners will receive amounts of \$5, \$3 and \$1, announces T. H. Glenn, faculty advisor for the Ariel staff.

Execution Stay Is Given Slayer

SPRINGFIELD, Ill., April 15.—Bernard Grant, penniless "back o' the yards" Chicago, again for a time dodged the noose when Gov. Len Small granted him a stay of execution until August 14.

Grant was convicted with Walter Krauser of the murder of a Chicago patrolman and both were sentenced to death on the gallows. The state supreme court affirmed the decision in Grant's case, but for several months failed to act in the Krauser case.

Grandmother Knew

There was Nothing So Good for Congestion and Colds as Mustard. But the old-fashioned mustard plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister.

Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders.

Gently massage Musterole in with the finger-tips. See how quickly it brings relief—how speedily the pain disappears.

Try Musterole for sore throat, bronchitis, tonsils, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back and joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (it may prevent pneumonia).

To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

35c and 65c jars and tubes; hospital size, \$2.00.

Better than a mustard plaster.

Interesting Exhibit Of Home-Craft at Ebell Tea

Responding enthusiastically to the plan of Mrs. William L. DeWolfe and her assisting hostess, Mrs. W. H. DeWolfe, to present an informal exhibit of bags, rugs and lamp shades, members and friends of Ebell society made Monday evening tea a unique event indeed and one enjoyed by scores of women who filled the spacious clubhouse to overflowing.

In all, the exhibit offered 37 handsome rugs, brussels and hooked all hand-made and beautiful examples of a revived art; 108 bags beaded and embroidered elaborately, and two dozen beautifully artistic lampshades. Nor was the exhibit the only attraction of the afternoon for the usual plan of card playing was followed in the banquet room and sewing and friendly chat in the lounge. Twenty-four tables were required for the card players and the committee composed of Mesdames J. N. Bartholomew, C. S. Crookshank, W. F. Ferry, R. M. Miles, C. W. Chamberlain, C. V. Doty, A. D. Bishop, J. S. Smart and C. P. Boyer, were highly commended for the interest with which they invested their games.

Vivid little luster salt and pepper sets formed attractive prizes awarded the one scoring high at each table. Over in the lounge where many members and guests congregated for the "witchery of stichery," added entertainment was given by Mrs. L. L. Beaman's delightful readings and Mrs. Moseley's piano numbers. Mrs. Charles Carothers, Mrs. E. B. Sprague, Mrs. Beaman and Mrs. C. C. Violette were gracious hostesses.

At the tea hour the dainty menu was served by Mrs. Archie V. Herr and her members of the Fifth Household Economics section. Arriving guests were greeted by Mrs. E. H. Boden and Mrs. W. B. Tedford, who had charge of the register. The formal program of the afternoon interval was that planned by the music section and offered such favorites as Miss Louise Montgomery, Mrs. A. J. Burton and Lyle Robertson.

In awarding prizes for the triple exhibit, Mrs. DeWolfe and Mrs. DeWolfe bestowed the aid of Miss Hazel Bemis and Miss Edith Cornell as judges. Their verdict in the bag exhibit, awarded the prize of a merchandise order on the Rankin store, to Mrs. O. S. Catland for a handsome beaded bag of floral design, an heirloom nearly 100 years old. Second prize went to Mrs. Arthur May, whose exhibit was also an heirloom, and third prize was awarded a bag shown by Mrs. Emrys D. White.

Special mention was accorded entries by Mrs. L. C. Fairbanks, Mrs. R. Ruth Tiffany, Mrs. Bailey and Mrs. E. H. Thompson.

Rugs were unusually beautiful, but the loveliest of all was that entered by Mrs. Robert Northcross with one by Mrs. Ida Dunphy chosen as second and one by Mrs. H. Earle as third. Honorable mention was given others entered by Mrs. Dunphy and Mrs. Greenleaf.

In the landscape display, the entry of Mrs. Howard Timmons was adjudged the handsomest, with second prize falling to Miss Gertrude Montgomery and third to Mrs. DeWolfe for a shade made by young Miss Sherrill Spurgeon, daughter of the W. H. Spurgeons. Given honorable mention were shades by Mrs. P. P. Jayne, Mrs. Northcross and two entered by the Misses Gertrude and Louise Montgomery.

Prizes in every case were merchandise orders offered by the Rankin dry goods store, which also co-operated by sending several beautiful lamps. Other business firms co-operating were Ira Chandler and Son, furniture, J. C. Horton Furniture company, and Robertson Electric company, all of whom displayed handsome lamps and loaned lamp standards.

Exquisite floral decorations were arranged by Mrs. Fred Taylor and Mrs. A. D. Bishop, so that Mrs. DeWolfe was enthusiastic about the aid rendered in every particular and Ebell members were equally pleased over the many entertaining features of the afternoon.

Various Events Add To Social Life Of Week

Dancing Party
Complimenting Miss Catherine Cruzen and Miss Audrey Bon Durant on their birthdays, was a delightful little party arranged recently by a group of friends. Motoring to Long Beach, the merry-makers danced the evening hours away at the Cinderella ballroom, later returning to Garden Grove, where the Bon Durant home offered friendly hospitality.

The pleasant home was adorned with carnations and lilies and a midnight supper of sandwiches, cake and coffee offered refreshment to the young people.

Miss Cruzen and Miss Bon Durant were showered with many lovely gifts by their friends, who included the Misses Janey Wilde, Laura Beaman of Mankato, Minn., Berenice Hanson, Alice Shepherd, Mrs. Grace Stewart and Messrs. O. Johanson, Wayne Harmon, Edward Finney, James Conrad, Herbert Eldridge, Romy Bon Durant of Los Angeles and Vernon Cruzen.

Gift Shower
The home of Miss Theora Gillins was the scene of a pretty appointed party recently, when Miss Lucille Robertson, fiancée of Leiland G. Gillins, was complimented.

Sweet peas in a variety of lovely colors were used with extreme artistic effect in the decorations of the home, where the hostess and her sister greeted the guests. The afternoon of social chat was climaxed by a gift shower when Miss Robertson was presented with many pretty articles to be used in the home which is so soon to be established in Los Angeles.

At the tea hour the hostess served punch and wafers with ice cream and cake, seating the guests around a table attractively garlanded with posies.

The marriage of Miss Robertson and Mr. Gillins is to be an event of Saturday, April 18. The bride-to-be has lived in Santa Ana for several years and will be greatly missed by her friends.

For Sixteenth Birthday
A happy event of recent date was a birthday surprise on Miss Catherine Stacy of 306 North Bristol street, planned by Mrs. Will Hart and Miss Opal Owens. According to arrangement the guests met with Miss Owens and proceeded to the Stacy home, took the birthday celebrant completely by surprise.

The feature of the evening was the presentation to Miss Stacy of a handsome cedar chest, Mrs. Hart making a friendly little speech and presenting the gift on behalf of the assembled guests. An evening of lively games, dancing and music followed and at the refreshment hour Mrs. Hart, assisted by the honoree's mother, Mrs. J. A. Stacy, Mrs. George Mulder and Mrs. A. A. Harmon, served a beautiful birthday cake with sixteen candles and fruit punch.

Joining in happy wishes for many more delightful birthdays for Miss Catherine were the Misses Frances Simmons, Velda Davis, Florence Erickson, Opal Owens, Marian Maxwell, Louise Schorle, Minerva Carpenter, Wilma Getty, Esther Messick, Elsie Harter, the little group of matrons already named and the following young men, Messrs. Hale Tippet, Lester Erickson, Victor Schorle, Melvin Harter, Loren Geissel, Robert Marsh, Curtis Vaughn, Harlan Fryatt, Errol Brock, Willard Francis, Ivan Swanger, Otis Fye, Floyd Burkland and Carl Lacy.

Junior Philathea Party
Miss Ruth Pietsch was charming hostess last night to the members of Junior Philathea class of the First Baptist Sunday school who met at her Barton street home for a merry party following a business session.

Disclose Plans For The Second Annual Flower Exhibit

With Southern California ready to burst into full bloom and form the loveliest of animated bouquets, interest in Santa Ana centers in the spring flower show and garden bazaar which the Garden section of Ebell society is presenting at Ebell club Thursday and Friday of this week.

So successful was the first bazaar, given last fall, that memories of it give added interest to the plans as outlined by Mrs. J. E. Paul, leader of the section and prime mover in all arrangements. With the aid of capable and enthusiastic committees, Mrs. Paul promises an exhibit that will amaze and delight everyone and those who have been given an idea of what awaits them at the opening Thursday afternoon, are on the quiver with anticipation.

The clubhouse will offer a more charming setting than was possible last fall, for the surroundings are so beautiful now. Where were barren spaces in the parking surrounding the building, are now emerald slopes. In the patio is a carpet of soft green velvet with cypress trees and graceful vines to add to the artistic effect. Needless to say the patio will play a large part in the plans and will offer setting for garden furniture to be in charge of Mrs. J. E. Liebig and her committee.

Nurserymen of the city will co-operate and aiding them as the nursery committee will be Mrs. S. W. Stanley assisted by Mrs. H. J. Forgy. Plants, shrubbery and flowers will all be shown and orders will be taken for anything of the nature.

Plants to be donated by amateur gardeners and flower lovers will be in charge of Mrs. Earl Morrow and incidentally, Mrs. Morrow will welcome all contributions to this section. Such gifts may include growing plants or shrubbery, vines, bulbs and roots. Closely allied in interest will be the cut flower display for which contributions are also asked and which will be in charge of Mrs. J. T. Wilson. The appeal for flowers is a most fervent one and Mrs. Wilson will gladly arrange to call for contributions if generous minded folk will telephone her.

To those who have lively recollections of the many dainties in garden vegetables appetizingly prepared, in garden fruits deliciously canned and in avocados and citrus fruits artistically arranged, at the fruits and vegetables table last fall, the announcement of Mrs. Charles P. Kinyon that there would be an even greater assortment of dainties for sale this year, will come as splendid news. Contributions will of course be greatly welcomed and are sure to come in.

A special program of music and fancy dancing has been planned and will be served in furthering the delightful plans of the hostess society.

Altar Society
Mrs. Mat Snyder and Mrs. J. P. Eyer will be entertaining hostesses tomorrow at the Snyder home, 1310 South Broadway where the members of the Altar society of St. Ann's church will welcome the ladies of St. Joseph's church, members of the Capistrano chapter, Y. L. I. and other interested friends.

Aid Society
Section No. 1 of the Richland avenue Aid society will meet tomorrow afternoon at 2:30 o'clock at the home of Mrs. C. N. Grace, 1229 French street. All section members are urged to make a special effort to be present.

Smart Summer Wash Frocks
You'll be prepared to enjoy these warm days if you are dressed in one of these smart wash frocks. They're adaptable for wear at all times.
The styles are so varied that you are certain to find the exact model you have in mind. Colors, too, are plentiful and combinations that are most pleasing.
New Gingham in fresh new patterns are priced as low as \$3.45.
Striped or plain English Broadcloths are utilized most effectively in charming dresses at \$5.95.
Linen in the season's favored shades—trimmed in contrasting colors in self materials or with touches of embroidery are shown at \$6.95.

**Interesting
Millinery Values**
Here are splendid models in horse hair braid hats in white, deftly trimmed in silk and silver. The smartest of the early summer models are shown in this connection and at a decidedly lowered price. \$10.75.
**Silk Broadcloth
Stripes, \$2.50**
Broadcloths are leading in popularity among the summer silks. The new patterns we've just received are exceptionally appealing both in the matter of quality and design. They are exceptionally appealing in view of the low price. \$2.50

**Nightingale
Hosiery**
\$1
The mode of shorter skirts directs attention to your hosiery—therefore you'll be glad to know you can secure this luxurious, long wearing silk hose at so moderate a price. The color range in Nightingale Hosiery embraces about twenty of the most favored shades and black and white.
They offer a very superior value, both in quality and appearance at \$1.

Legion Auxiliary
Because of the date of April 17 having been chosen by the American Legion for a dance, the Legion auxiliary has cancelled its plans for the card party of which first announcement was made Monday.
The auxiliary will have its usual meeting tomorrow night at Legion home at 7:30 o'clock when Master Freddy James will sing and little Miss Arlene Crawford will give readings. Refreshments too will play a prominent part in the evening program. Members are reminded of the membership drive now in effect and are asked to bring new members for initiation.

How many Electrical Connections will your new home have?

If your new home is to be a real home of electrical comfort the wiring must be done by a qualified electrical contractor who installs convenient connections for electrical appliances, provides correct lighting and uses standard wiring devices.

Such qualified contractors are identified for you by the "Check" Seal of this Company. Before you build or buy, insist on "Check" Seal electrical wiring. Also when you need electrical appliances, remember that "Check" Seal electrical retailers sell quality electrical merchandise.

INSTALL NEW OFFICERS FOR LOCAL ELKS LODGE; PRESENT WASSER, OTHERS WITH GIFTS

With Joseph Burke, past exalted ruler and past district deputy grand exalted ruler, officiating, officers of Santa Ana lodge No. 794, Benevolent and Protective Order of Elks, were installed at last night's meeting in the clubhouse.

The meeting was marked by the presentation of gifts to W. W. Wasser, retiring secretary; V. A. Rossiter, retiring trustee, and "Chick" Deitrich, chairman of the "feed" committee.

Wasser, who has been secretary here for the last 10 years, was the recipient of a number of gifts. Members presented him with a gold watch, past exalted ruler gave him a gold chain and card case, and a pair of Elk cuff links and a bouquet were a tribute from Mrs. Wasser.

The presentations were made by Horace Head of the Santa Ana lodge; Harry M. Ticker, Pasadena, past president of the state association of Elks, and by Joseph Burke.

Is Moved To Tears

Under the stress of emotion and with tears streaming from his eyes, Wasser told of the pleasure that he had derived from serving the lodge and cited some interesting lodge figures. In all the 10 years that he was secretary, he did not miss a meeting. During that time, there were 249 regular sessions and 27 specials. The lodge had a membership of 550 on April 1, 1915, when he was inducted into office. Since that time, 709 candidates have been initiated and 119 admitted by demit. One hundred and twenty-eight of those initiated were proposed by Wasser. The lodge now has a membership of 848 members, the organization of lodges at Anaheim and Orange taking a number of the local members.

Wasser plans to devote most of his time to his ranch. His successor is E. R. Majors.

Last night marked the first appearance of the new Elks' orchestra. Fred Chapman is the leader and all members who are musically inclined are urged to "join".

Sing Elks Songs

A new song "B.P.O.E.", written by Lyle Anderson, was sung by the lodge quartet, Robert Payne, Ed Newman, Bobby Davis and Anderson.

The incoming exalted ruler, William E. (Stormy) Gordon, thanked the members for the honor bestowed upon him and asked for their support during his term of office.

The lodge room was crowded with Elks from all parts of the Southland. Among those present was Hal Reynolds, past exalted ruler of the Pasadena lodge.

Following are the new officers: Exalted ruler, William R. (Stormy) Gordon; leading knight, William McKay; loyal knight, J. L. McFadden; lecturing knight, S. M. Reinhaus; secretary, E. R. Majors; treasurer, C. L. Slesinger; tyler, F. J. Adams; esquire, Earl R. Abbey; chaplain, W. L. H. Benton; inner guard, Sam Jernigan; trustee for three years, G. C. Ross; delegate to grand lodge, V. A. Rossiter; alternate, J. Fred Parsons.

Present Fine Program

A highly diverting program of entertainment was presented at the conclusion of the meeting. Arranged by Earl R. Abbey, chairman of the entertainment committee, the program consisted of songs, dances and instrumental numbers. The artists delighting the lodgemen with their efforts were Virginia De Lille, soloist; Babe Egan, violinist; Rathburn duo, dancers; Irene Jones, soloist; Nomis, dancer; Sadie Halperin, accompanist.

Following are the committees appointed by Exalted Ruler Gordon: Sick—for Santa Ana, William McKay, W. L. H. Benton, Sam Jernigan, A. E. Hawley, R. L. Godwin, J. Wiley Shields; Tustin, H. Roy Smith; Balboa, J. P. Greeley; Huntington Beach, E. J. Keogh; Capistrano, R. O. Bird; El Toro, M. B. Stevens; Irvine, Charles Tilden; Laguna Beach, Maurice Isch; Garden Grove, C. B. Henry; Costa Mesa, Harry Williamson.

Auditing—W. W. Wasser, C. W. Baxter, E. L. Vegeley, V. T. Hawk, Joseph Backs. Entertainment—Earl R. Abbey, W. H. Titchenal, Lyle Anderson, A. G. Flagg, Dan Thomas, Charles D. Van Wyk, C. W. Decker, L. A. Schlesinger, G. D. MacMullan, Fred Chapman.

Social and community welfare—S. M. Reinhaus, Z. B. West Jr., Guy Gilbert, Hugh Plumb, E. S. Morrow.

Good of the order—J. L. McFadden, J. Fred Parsons, Robert W. Collins, Joseph Burke, Clyde Bishop.

Big brothers—G. K. Scovel, Fred Forgy, Charles Swanner. Feed—E. J. Dairich.

Set Trial Date Of Case Filed In Orange Court

ORANGE, April 15.—At a hearing in Recorder's court here yesterday, Wednesday morning, April 22, was set as the date for the trial of F. Anaya, El Modena, Mexican, who is being sued by Bautista Cortez, also of El Modena, for a judgment of \$102, which the latter claims he loaned Anaya.

About November 1, 1924, it is claimed by the plaintiff, Anaya, and a friend borrowed \$62 from him, giving him their promissory note, which denoted a time limit of two months. Although Cortez claims to have the note, he declares that he has received no money or interest from his alleged debtors.

In a second charge Cortez claims that again, on December 22, 1924, he loaned Anaya \$100 in cash, with the understanding that it would be returned to him within 30 days. Cortez declares that although he has made frequent demands for the money, Anaya has refused to pay even a portion of it. Morris A. Cain, of Santa Ana, is the attorney for the plaintiff.

Fresh vegetables daily. D. L. Anderson Co. Free delivery.

Charge Two With Avocado Thefts In Orange County

Charged with stealing avocados from Orange county groves and peddling them to grocery men in Los Angeles county, D. A. Gomas and Jose Garcia were brought to the Orange county jail last night by Deputy Sheriff Dan Adams, following their arrest in Los Angeles two days ago.

The men are thought to belong to a Mexican ring, which for the last several weeks is alleged to have done a thriving business selling stolen fruit in the city, much of it coming from groves in this county.

The fruit, said to have been found in the possession of the two men who were jailed yesterday, was recognized as that stolen from the ranch of James Utt, Lemon Heights, last Wednesday night, according to Adams. It amounted to approximately 360 pounds.

With four Mexicans in jail now, charged with avocado stealing, Adams is of the opinion that most of the gang has now been rounded up. He has been working almost exclusively on the case for several weeks.

Health Officer Makes Report To Orange Board

ORANGE, April 15.—Twenty-one cases of communicable diseases were cared for in the city of Orange during the month of March, according to the monthly report submitted by Dr. V. G. Prosser, county health officer, and read at the meeting yesterday afternoon, of the city board of trustees.

Of the 21 cases of communicable disease reported, 13 cases were chicken pox and five mumps. One case each of scarlet fever, tuberculosis and whooping cough were cared for.

More than 30 babies were examined during the month at the Child Health Centers conducted here by the county nurse. Seven visits to homes were made by the nurse, in connection with the clinic work.

Visits to the schools here during the month numbered 70 and 154 teachers were interviewed. Four school rooms were inspected and 71 students examined, with the result that nine were excluded from class. Seventeen emergency treatments were given and three corrections induced through the school visits.

During March eight dairies and three creameries were inspected. Six samples of market milk, one sample of market cream and 28 samples of producers' wholesale cream were collected. Two samples were analyzed for butterfat and solids and one sample was analyzed and scored for sediment. Meat markets inspections numbered 21, and two requested improvements were complied with. Two fish markets also were inspected.

Fire Department Reorganization Given Approval

ORANGE, April 15.—The ordinance providing for the reorganization of the Orange fire department, introduced and read for the first time at last week's meeting of the city board of trustees, was passed by the municipal body at its meeting in the city hall here yesterday afternoon.

The new department, upon organization, will consist of a chief, two truck drivers and a company of 18 men. The chief and drivers will be selected by the city board of trustees and the company will be recruited by the fire chief, with final decision resting with the city board.

The ordinance providing for the zoning of the city into two districts, business and residential, was reread to the trustees yesterday. One change, that of allowing rock crushing quarries to operate in that section of the city along the Santiago creek, has been made in the proposed measure, but final action has not yet been taken by the board.

ALLAY FEARS ON TEACHERS' PENSION FUND

Assurances that there are no immediate prospects of the California teachers' retirement fund going on the rocks of bankruptcy were given the assembled school executives at the Council of Education meeting and the California High School Principals' convention held last week in Santa Barbara, according to J. A. Cranston, city superintendent of schools, who attended the meetings.

It was reported that the fund will easily carry itself for the next 10 years, taking care of all obligations, Cranston commented. He added, however, that the best interests of all concerned, the California Teachers' association, welcomes an investigation of the soundness of the retirement fund, but urges that such inquiry be made by a body of citizens known to be in sympathy with the aims of public education and the welfare and protection of the large body of men and women who compose the teaching force of the public schools.

Mention was also made of the fact that E. P. Clarke, president of the state board of education, in an address to the high school principals, recommended that the contributions of the teachers be increased to \$24 a year, and that the state be asked to contribute an equal amount for each teacher who pays into the fund. Such increase would assure the fund of \$1,500,000 a year, sufficient to support 3500 teachers, or almost double the number under the present system.

In his talk to the principals, President Clarke explained that \$15,000 has been appropriated to pay for the cost of an investigation of the retirement fund, and that the report will be submitted to the 1927 legislature, with necessary recommendations.

Orange Church Executive Board To Meet Monday

ORANGE, April 15.—The quarterly inspirational conference of the executive board of the Orange Presbyterian Sunday school will be held here Monday night, April 20, in the church dining room, it was announced yesterday by M. T. Carlson, Sunday school superintendent.

Preceding the meeting at 6:30 p. m., a dinner will be served by the Ladies' Aid society of the church. An interesting program, including prominent speakers, is promised and members of the Sunday school council and others interested in the work are invited to attend.

Every Chandler has the Traffic Transmission and only Chandler offers it.

Never a care as she drives

Naturally the American woman prefers a Chandler.

She admires the fundamental beauty and distinction of the Chandler-Fisher bodies.

She glories in the smooth and splendid power of the Pikes Peak Motor.

She delights in the sharp but velvety action of Chandler 4-wheel brakes—and takes comfort in the dependability that time has linked with the Chandler name.

But most of all she prefers her Chandler because she knows that the

Traffic Transmission enables her to drive anywhere with serene self confidence.

She knows she can never clash gears—never fail to engage the proper gear with expert smoothness whether on hills or in heavy traffic.

She knows that her car is always under perfect control and that she can readily change from high to second or low at any speed!

And so she drives her Chandler when and where she will, with never a care.

(The Traffic Transmission is built complete in the Chandler plant under Campbell patents)

Reducing Diet Features Menu

PARIS, April 15.—Lamb chops and pineapple are featured on every menu in Ciro's, Cafe Paris, Maxims and other well known res-

taurants frequented by Americans to cater to a new reducing diet most American women are undergoing here.

In the leading restaurants there are so many orders for these dishes that it has been decided to offer them for luncheons and dinner daily.

"Nearly half of our lady customers restrict themselves to lamb chops and pineapple at least one meal a day," said Maurice, the head waiter at Ciro's.

Those taking the cure eschew bread, vegetables and all liquids except tea, and claim they lose an average of a pound daily after the first week.

SANTA ANA COW BREAKS RECORD FOR BUTTERFAT IN CALIFORNIA

Becomes State Champion and Narrowly Escapes National Supremacy

SEGERSON AND SONS OWN FINE YIELDER

Local Holstein-Jersey Produces 2799 Pounds of Milk During March

No. 10, a Holstein-Jersey owned by C. J. Segerstrom and Sons, Santa Ana, is the state champion in butterfat production and escaped being national champion by but a fraction of a point, it was revealed here today, following receipt of figures from Arthur Folger, superintendent of official testing at the university farm, Davis.

The local cow, during March, produced 142.7 pounds of butterfat and 2799 pounds of milk, or 13.13 more butterfat than the state champion J. W. Higdon's Ruby Pieterie of Forrest Hill Second, whose production was 129.57 pounds of butterfat and 3144.5 pounds of milk.

Near National Record
 The national champion, Hester Astle Korndyke, owned by M. J. Smiley, of Bellefourche, S. D., has a record of 142.8 pounds of butterfat and 2567.7 pounds of milk. From these figures, it will be seen that No. 10 lacked but a fraction of one per cent of also breaking the national record.

The records are based on butterfat production, and not upon the volume of milk obtained.

No. 10 comes of a family of leaders, her dam and her sister both being consistent producers. No. 10's picture was published on the farm page of the Register last Wednesday, but at that time it was not definitely known that she had broken the state record for butterfat production.

Two Tests Each Day
 The local cow was tested twice daily and two check tests were made by Morton Mellinger, official tester for the Orange County Cow Testing association.

Following is the letter from Folger, addressed to W. M. Cory, assistant farm adviser:

"The highest 30-day record made in California is that of J. W. Higdon's cow, Ruby Pieterie of Forrest Hill Second. She gave

(Continued on Page 12)

GENUINE BAD MAN

"The Bad Man," as visualized by James Duggan, commercial artist with the Flagg Printing company and member of the cast of the Community Players' production of "The Bad Man," to play at Eboli auditorium, April 22, 23, 24 and 25.

LEGION NIGHT IS COMMUNITY PLAY FEATURE

American Legion night at the Santa Ana Community play, "The Bad Man," will launch the 4-night engagement in a most interesting manner, for at the recent luncheon club meeting of the Legionnaires, decision was reached for the members to attend the first night (Wednesday, April 22) in a body. In concurring with the plan, the director, George Gerwing, and the management have reserved a block of excellent seats at Eboli auditorium which will be available to Legion and Legion auxiliary members only.

The deep interest on the part of the World War veterans is due to the fact that two members of the cast are Legion men, who had prominent parts in the recent play, "Within the Law," which scored so great a success for the patriots.

(Continued on Page 12)

HEIRS IN COURT TO COLLECT ON \$87,000 ESTATE

Dozen Take Steps to Collect From Property Left By J. H. and Mary Maley

A dozen heirs of the late Mary Maley, who died in 1911, and who was survived by her husband, J. H. Maley, until last year, today took steps in superior court to claim a substantial portion of the Maley estate, valued at \$87,227.09. An agreement between husband and wife, made before the death of Mrs. Maley 14 years ago, forms the foundation for the \$13,084.06 demand of her heirs, who have brought suit against the executor of the Maley estate, claiming that they have not received a share apportioned them under the alleged agreement.

This agreement, according to a copy filed with the suit of the heirs, provided that the estate of Mr. and Mrs. Maley should be divided into two parts, proportioned as \$3000 to \$20,000. The smaller portion, it was provided, should go to heirs of Mrs. Maley, and the larger portion to heirs of her husband, following the death of both, he estate was thus proportioned, the agreement stated because those were the respective amounts received by Mr. and Mrs. Maley from their parents, upon which to found their subsequent estate.

Following the death of J. H. Maley, last year, W. W. Halesworth was appointed executor of the estate. He is made defendant in the suit filed by Mrs. Maley's heirs, who include C. F. Millen, Frank W. Millen, Elizabeth J. Whiteman, John M. Millen Jr., Ralph G. Millen, Martha Keeler, Frances Brydon, Amy Gordon, Allen Gordon, Kenneth Gordon, J. W. Gordon and Norman Cramer, as guardian of Glenn Oaks, a minor. The plaintiffs are represented by Attorney L. A. West.

According to the complaint, it is estimated that the portion of the estate belonging to the plaintiffs is \$13,084.07. Of that sum, only \$247 has been paid, it is alleged. That amount, according to a notation on the back of the agreement, was advanced to one of the heirs, from her share.

Flames Destroy Hotel at Mojave

MOJAVE, April 15.—Fire routed 35 guests from their rooms in the Kingston hotel here yesterday, and caused approximately \$75,000 damage. The building was a total loss. Most of the guests lost their personal effects. The fire was discovered at 9 a. m., and some of the late risers were forced to flee their rooms in flimsy attire.

NEW RATES OF POSTAGE ARE NOW IN FORCE

Increased Charges to Provide Higher Pay For Workers Is Effective

Beginning today, April 15, Santa Ana residents, as well as those of every other community in the United States, will pay a general increase in rates on cards, letters and packages sent through the mails. The increase in rates is provided in the new postal pay and rate schedule measure, the increase in rates being designed to offset wholly or in part, the increase granted to postal employees.

Bulletins setting forth the new schedule of rates, and an explanation of the various classes of mail, have been posted at the local post office. These bulletins set forth that the new rate on all private postcards will be two cents each, instead of one cent as heretofore, whether they bear printed or written matter. This rate will also apply to each portion of double or reply postcards. Government cards, officially designated as "postal cards," printed and sold by the post office department, will remain at one cent.

Second-class Increase.
 An increase of one cent is provided in the case of transient second-class mail, the rate of postage of which is now two cents for each two ounces or fraction thereof for weights not exceeding eight ounces. For rates exceeding eight ounces, fourth-class rates shall apply.

An increase of one-half cent is applicable to third-class mail, excepting newspapers and other periodicals entered as second-class matter. Third-class mail does not include any matter exceeding eight ounces and the new rate is one and one-half cents for each two ounces or fraction up to and including eight ounces. The limit for weight in this class has heretofore been four pounds.

Fourth-class matter, under the new law, will include weights in excess of eight ounces and the rate will be the same as the present except that, in addition, a service charge of two cents for each parcel will be made, except on parcels collected on rural delivery routes.

Registry fees which, up to yesterday, were 10 cents, were today increased to 15 cents, in addition to the regular postage for domestic parcels of the first-class indented for \$20 or less. The charge of 20 cents for articles indented over \$50 and not in excess of \$100 will remain the same.

Increase of Insurance.
 Insurance fees, which have been three cents for parcels not over \$5 indented, will be increased five cents; the old fee of five cents for articles valued at \$25 will be increased to eight cents, but no change will be made in case of parcels indented at more than that amount. The fee is in addition to regular parcel post postage and the 2-cent service charge.

The C. O. D. fee which, until today, was 10 cents up to valuations of \$50, will be 12 cents for collections not to exceed \$10; 15 cents for collections not exceeding \$50; and 25 cents for collections not running more than \$100. The C. O. D. fee is in addition to the regular parcel post postage and the 2-cent service charge.

If the sender desires a return receipt for registered or insured mail, a charge of three cents will be made in addition to the postage and the registry or insurance fee.

Increases of two cents have been made in money order fees up to valuations not exceeding \$20. The new schedule is as follows: Orders not exceeding \$2.50, five cents; \$2.50 to \$5, seven cents; \$5 to \$10, 10 cents; \$10 to \$20, 12 cents; \$20 to \$40, 15 cents; \$40 to \$60, 18 cents; \$60 to \$80, 20 cents; \$80 to \$100, 22 cents.

ROOSEVELTS SAIL ON FIRST LAP OF JUNGLE EXPEDITION

Kermit and Theodore Roosevelt and George K. Cherrie, noted explorer, who have sailed from New York on the first lap of their jungle trip, which will take them to the Pamirs plateau, in Mongolia, where they expect to catch the "ovis poli," a great horned ram, found 20,000 feet above the sea level, "on the white roof of the world." They will debark at Karachi (1), go by rail to Peshawar (2), then to the vale of Kashmir (3), then by a hazardous mountain route to Gilgit (4), with their last stop in the Pamirs (5).

CALL MEETING ON COLLEGIATE ALUMNI PLANS VISIT RIVERSIDE

Plans for the formation of an alumni association for the Santa Ana junior college will be considered at a meeting of graduate students to be held Friday evening, April 24, at the home of E. M. Nealley on Tustin street, at the corner of Prospect.

The date, originally set for this week, was postponed to avoid conflict with another junior college activity.

According to Nealley, it is proposed that the membership in the alumni include students who have attended the junior college for one year. The suggestion will be decided at the meeting. It is pointed out that the condition, if approved, will make possible a large personnel.

Sophomore students now attending the junior college are invited to the meeting. An effort is being made to have Isabel Andrews, graduate and former teacher in the college, present to aid in the organization.

Since the inception of the junior college in Santa Ana 10 years ago, graduate association has been regularly organized. An alumni association is advocated to remedy this condition.

Knives, shears sharpened at Hawley's.

Fire Survey Of Schools Will Be Made

Fire Chief John Luxembourger, of the Santa Ana fire department, will be asked to make a survey of fire protection in the city schools, and to make such recommendations to the board of education as may be deemed necessary.

Action to that end was taken yesterday afternoon, at the regular school board meeting, when the matter was brought up by Dr. Roy S. Horton, a member of the board.

Calling attention to a recent incident at the high school auditorium, Dr. Horton suggested that, in addition to adequate fire protection, a responsible person be placed in charge of the auditorium when used for public entertainments, a person who would be familiar with the location of fire alarm signals and fire-fighting equipment.

OLIGER TELLS ROTARIANS OF C. C. PROGRAM

"The ideas gathered in Rotary and elsewhere should become deeds through the chamber of commerce and other organizations. Quoting this and other paragraphs from a Rotary pamphlet, "A Guide to Community Service," A. L. Olinger, secretary of the Santa Ana Chamber of Commerce, in an address to the Rotary club at St. Ann's Inn, yesterday stressed necessity for community support of the chamber and outlined some of the objectives of the chamber for this year.

The secretary explained the new building being erected on the grounds of the hotel and emphasized the many ways that the chamber, in its new home, will be able to strike a closer contact with its members and with the thinking men of Santa Ana.

Gardner in Chair

Harvey A. Gardner, a Rotarian and a director of the chamber of commerce, presided at the meeting. He called upon C. A. Haley, director, who stressed the need of cooperation between Santa Ana and Orange for securing a number of things that will be of mutual benefit, and John W. Estes, membership chairman of the chamber of commerce, who called on each Rotarian to bring in at least one new member for the organization he represents.

The musical feature of the day's program was the singing by Robert Brown, who presented "Lassie O'Mine" and "On the Road to Mandalay," with Miss Ruth Armstrong accompanist.

Rotarians Visit Long Beach
 Today, 25 members of the Santa Ana Rotary club went to Long Beach to give the program at the weekly luncheon of the Long Beach Rotary club. Jerome Shaffer, who is a frequent visitor at Santa Ana Rotary, and Joe Skidmore, Laguna Beach, were put in charge of the program.

Two Resign from School Positions

Two resignations were accepted at the regular school board meeting yesterday afternoon. One was submitted by Leroy A. Warren, attendance officer of the school district, who has been appointed county probation officer, succeeding R. R. Miller. The other resignation came from Mrs. Frances Thayer Neill, assistant librarian of the junior college, to take effect at the end of the school year.

Mrs. Neill intimated that she could not afford to remain at the salary provided for this position, taking into consideration educational requirements and professional equipment.

Pending the selection of a successor to Mr. Warren, the office of attendance officer will be in charge of Edward B. Covington Jr., instructor of physical education at the high school.

Eating Is Curse of U. S., Says Depew

NEW YORK, April 15.—Eating, and not drinking, is the curse of America, according to Chauncey M. Depew, who reaches the age of 91 on April 26. Writing in Collier's Weekly, the veteran statesman says:

"Drinking was never really the curse of America. Eating was and is. I found that I ate too much when I was 60. One day I discovered that I felt unwell. On the principle of setting a present problem to take care of the future, I revised my diet. For 30 years, the only meat I've eaten has been poultry."

At 65 Depew says he had another bad day, so off went the cigar habit. At 88 he had another bad day. "This," Depew writes, "analysis showed, that alcohol was the trouble. I had made a habit of drinking a pint of champagne a day. But at 88, it interfered with health and efficiency. Reluctantly, but decisively, I cut out the wine. Now I take a glass when a cold threatens, but apart from that I'm a total abstainer."

WILL ENFORCE LAW ON SCHOOL FRATERNITIES AND SOCIETIES

Resolution Is Passed By Principals' Association Covering Observance

EDUCATORS AGAINST RULE MODIFICATION

Frown Upon Extension of Long Beach Policy to Other Institutions

Fraternal and secret organizations in high schools came under discussion before the annual meeting of the California High School Principals' association last week at Santa Barbara, with educators from all Orange county schools in attendance.

During the session, a resolution was passed caucusing on the state department of education to effect a stringent enforcement of the laws on the statute books banning secret orders in public schools. School boards in districts throughout the state were urged to take any steps necessary to curb the operation of fraternities and sororities.

The subject came before the principals in a discussion concerning the "legalizing" of secret organizations at Long Beach high school.

Long Beach Permits Frats
 It was pointed out that the authorities at Long Beach permitted frats, if the list of members was filed with the principal, together with the constitution and by-laws under which they are operating.

The principal of the Long Beach high school has an invitation to attend meetings of the fraternities. All meetings are held at stated intervals. According to a ruling of the county council of Los Angeles, it was held that the control of fraternities in Long Beach was not in violation of the law.

Among the state principals a preponderance of opinion was expressed against fraternities in high schools. The tactics of the secret orders were declared to have a demoralizing effect on student affairs.

Hammond at West
 D. K. Hammond, principal of the Santa Ana polytechnic high school, who was present at the sessions of the state convention, said that, so far as he knew, the high schools of Orange county have not been affected by banned organizations.

The principals frowned on any extension of the Long Beach policy of sanctioning fraternities or sororities.

Educators from all sections of the state attended the convention. Those who went from Orange county included R. P. Mitchell, county superintendent of schools; J. A. Cranston, superintendent of the Santa Ana schools; D. K. Hammond, of the Santa Ana polytechnic high school; W. S. Kellogg, of the Santa Ana Frances Willard junior high school; H. G. Nelson, of the Santa Ana Julia Lathrop junior high school.

Others attending were L. E. Plummer, Fullerton high school; J. A. Claves, of Anaheim high school; P. A. Henderson, of Orange high school; J. W. Means, of Tustin high school; A. D. Hoenshel, of Garden Grove high school; J. S. Malcom, of Capistrano high school; M. G. Jones, of Huntington Beach.

PLAY TO BE GIVEN BY DRAMA CLASS

"The Neighbors," a one-act play, is to be given before the regular assembly of the Santa Ana polytechnic high school student body, to be held tomorrow morning at 9:40 o'clock in the auditorium.

The cast is made up of students in the senior drama class. Ernest Crozier Phillips, high school dramatics teacher, directed the acting.

Eight students have parts in the play. The leads are taken by Miss Lorene Porter, and Rolla Hays Jr. Others who appear are Miss Goldie Jacobson, Miss Frances Van Nest, Miss Ruth Lawrence, Miss Evelyn Metzgar, Miss Alverta Van Tuyle and Fred Taylor.

JOHN ARAMBEL OFF FOR CEDAR RAPIDS

Johnny Arambel, Irvine outfielder, will leave Santa Ana tonight for Peoria, Ill., where he will report to the Cedar Rapids club of the Mississippi Valley league, a Class C organization.

According to word received here by George Lackaye, Cedar Rapids scout who signed Arambel, Bill Speas, manager of the Cedar Rapids club, plans to use the Irvine player in left field regularly if he shows he can stick in that kind of company.

WOMAN CONFESSES TO SLAYING MAN

LOS ANGELES, April 15.—Miss Nellie Walters confessed today to the murder of George M. Stalsby, 30, shortly after police found the slain man's body in an alley.

Robert McNeill, Miss Walters' sweetheart, and his sister, Mrs. Cora Brobeck, arrested with Miss Walters, were held as material witnesses.

Miss Walters, according to her confession, stabbed Stalsby in the back with a butcher knife during a drunken brawl last night at Mrs. Brobeck's apartment.

"I killed him to save my sweetheart," she said. "They were fighting and Stalsby was trying to kill Robert."

Stalsby's body was found in a garbage can in an alley, where it was taken after the killing by Miss Walters and McNeill, according to the confession.

CANADIAN LINER IS AFIRE IN DRYDOCK

LIVERPOOL, Eng., April 15.—The 17,000-ton Canadian Pacific liner Mont Laurier is afire in drydock here. The steamship's foredecks have been completely destroyed and the flames which were fanned by a high wind are spreading below decks.

Damage already amounts to more than 35,000 pounds sterling. A dozen fire brigades fought the flames and one fireman was seriously gassed. Plates on the vessel's forepart turned white hot and dense smoke covered the docks.

Russo-Japanese Treaty Ratified

PEKIN, April 15.—Formal papers of ratification of the new Russo-Japanese treaty were exchanged here today by the Soviet embassy and the Japanese legation.

Under the treaty, both sides enter into normal diplomatic and consular relations. The Treaty of Portsmouth remains in force. All other agreements are subject to revision at a Japanese soviet conference.

Pending conclusion of a definite trade agreement, the two nations agree to establish freedom of trade and commercial activity. Japanese citizens and companies are given the right to exploit the natural resources of Soviet Russia on a concession basis. This includes a preferential right to exploit 50 per cent of the oil area in northern Saghalien.

The Japanese receive a concessionary right to mine coal in the district of Dulsk, and on the west coast of northern Saghalien. From five to 15 per cent of oil and from five to eight per cent of coal obtained under these grants must be given to Soviet Russia.

Stage and Screen

Colleen Moore who has leading role in "Sally," current attraction at the West End theater here.

EARL'S DAUGHTER IS SHOT THROUGH LUNG

PALERMO, Sicily, April 15.—A sensation heightened by the presence here of King George V of England was caused today by news of the shooting of Lady Marian Hastings, daughter of the Earl of Huntingdon, who is in a serious condition with a bullet in her lung.

The British sovereign sent his own physician to attend Lady Marian. The shooting took place in a hotel room. Friends announce that it was accidental and say Lady Marian was examining a revolver which exploded.

King George was visiting Palermo during a Mediterranean cruise in which he is seeking to regain his health following an attack of influenza.

Citizens Are Advised to Have Papers Weighed

Santa Ana citizens intending to mail newspapers to eastern friends were today advised by Postmaster T. E. Stephenson to take such papers direct to the postoffice for mailing, so that they may get the correct postage charge. Recent changes in postal rates threatens confusion unless the matter to be mailed is brought directly to the stamp window at the postoffice and the exact charge determined, the postmaster said.

Let Holmes protect your homes.

TONIGHT'S ATTRACTIONS
WALKER — "Confessions of a Queen," with Lewis Stone and Alice Terry.
YOST—Vaudeville (five acts) and "Too Many Kisses," with Richard Dix.
WEST END—"Sally," with Colleen Moore.

"TOO MANY KISSES" CLOSING
AT YOST TONIGHT
When in Rome do as the Romans do.

And that's what Richard Dix does in his new picture, "Too Many Kisses," which closes tonight at the Yost. Not that the story is laid in Rome or anything like that.

In "Too Many Kisses," Dix has the role of a carefree young American who "works" in his father's moving office in New York City. In his "spare time," Bob Gaylord is a ladies man in every sense of the word. "Too Many Kisses" have brought poor Robert into court time and again to answer breach-of-promise suits and his father's patience with him is just about worn out.

At any rate, Bob finds himself unceremoniously shipped off to the picturesque little town of Potigry in the Pyrenees—far from the maddening crowd—and wild women. He thinks this is the case, anyway, and is more than agreeably surprised when his business abroad brings him in contact with the most beautiful girl he has ever seen.

Frances Howard, recently seen in the title role of "The Swan," in which part she made her debut in motion pictures, is featured as the Spanish beauty, Yvonne in this production. William Powell is the scheming Julio. Others include Joe Burke, Frank Currier, Paul Panzer and Alyce Mills.

LEWIS STONE HAS LEAD
IN WALKER FILM

It was only after much dicker-ing that Metro-Goldwyn-Mayer managed to contract Lewis S. Stone for the important role of the King in "Confessions of a Queen" which is the current attraction at Walker's theater.

As Christian in the picturization of the story which was adapted from "Kings in Exile" by Alphonse Daudet, he plays one of the most colorful roles of his career, for as the King, who is exiled, he is a brilliant, yet a pathetic personage.

Alice Terry has the feminine lead in this Seastrom production, that of the Queen, and John Bowser as the Prince Alexei, completes the trio that were entrusted with the three big parts.

COLLEEN MOORE AS DANCE
STAR IN "SALLY"

Colleen Moore is starred in "Sally," current attraction at the West End theater, and as everyone knows who has seen or read of this noted Ziegfeld stage success, "Sally" is a dancer.

In the screen version of "Sally" Colleen is required to impersonate a notorious Russian danseuse known as Noskerova. Her part requires that she perform a spectacular dance at the sumptuous lawn fete of a multi-millionaire.

A few days' practice, a sort of "brushing up" of her neglected talents, and the dance that Colleen Moore staged for the edification of Director Alfred E. Green startled and thrilled every one on the big set. Was this "Little Colleen" of those large eyes and that soul-stirring emotionalism?

"No need for a double here," exclaimed director Green. "That dance will stand up with any I have ever seen."

And such was the belief of every person who witnessed it. When "Sally" flashes upon the screen it will reveal another bit of versatility on the part of Colleen Moore that perhaps even her most loyal followers never expected.

Renew Pleas for Narcotic Hospital

SANTA BARBARA, Calif., April 15.—A resolution urging the California legislature to reconsider the narcotic addict hospital bill, which was vetoed by Governor Richardson, was prepared today for presentation to the Los Angeles district federation of clubwomen, in annual convention here.

Another legislative proposal, to appropriate \$25,000 for an investigation of living conditions among California Indians, will probably be endorsed by the delegates.

The convention is expected to take unanimous action in a declaration against war.

Dr. W. F. Dexter, president of Whittier college, touched off a sentiment for world-wide peace today in a stirring address.

Woman Killed, 2 Hurt In Crash

PASO ROBLES, Calif., April 15.—Agnes Emerson was killed, Frances Meek suffered a fractured skull and W. B. Barr, Los Angeles police lieutenant, was slightly hurt in an auto wreck near here early today. All are residents of Los Angeles and were returning from San Francisco.

TO COURT-MARTIAL KURDS.

ATHENS, April 15.—Two hundred rebel Kurds, captured at Diabekir, are to be court-martialed by the Turks and probably executed, according to Constantinople dispatches.

ASSOCIATED OIL COMPANY

CANDY DEALER AVERS SCHOOL TRADE IS HURT

No action was taken by the school trustees on a complaint filed yesterday by T. J. Trimble, owner of a confectionery store located opposite the Julia C. Lathrop junior high school, on South Main street, to the effect that pupils of that school were not allowed to leave the school grounds during the luncheon hour, a practice which, Trimble asserted, is hurting his business.

Principal H. G. Nelson, called on for an explanation, told the school trustees that Mr. Trimble was right in his complaint, but added that no students are allowed to leave the school premises during the luncheon hour except at the written request of the parents. This procedure, he added, was in strict accordance with the California school law, supplemented by instructions issued by the local school board. He also added that the greater number of parents are in favor of this restriction, which, it was explained, has the full approval of the P.T.A. of the school.

Explaining necessity for this rule, Principal Nelson said that, as a result of lax observance, pupils had been in the habit of leaving the school grounds for the purpose of engaging in undesirable activities, cigarette smoking, crap games, automobile rides, and the like. These observations were supported by Attendance Officer Leroy A. Warren, who said, as a result of this practice, it was necessary for the police to deal with men who were in the habit of picking up school girls in their automobiles. Following some further discussion, Trimble was advised that, if the parents were willing that their children should leave the school grounds during the noon period, and make a written request to that effect, there would be no objection from the school board, otherwise the present regulations will be enforced.

Fishing Schooner Is Wrecked When Hit By Steamer

SAN PEDRO, April 15.—Fifteen fishermen narrowly escaped drowning yesterday when their sailing schooner Diamond was struck by the French steamer Indiana, in a dense fog 25 miles south of this port and sunk.

The fishermen were rescued after they had clung for two hours to the floating wreckage of their craft and brought ashore.

The fishing vessel was cut in two parts and was a total loss. Damage was estimated at \$25,000.

Capt. Balthazar Daigneessart, the French vessel, had his lifeboats lowered immediately after the crash and directed the rescue of the fishermen.

The men were taken aboard the steamer and brought to port.

Graft Charges In Cincinnati Aired

CINCINNATI, O., April 15.—Testimony indicating that graft amounted literally to a license system in Cincinnati was introduced by the government in the trial of three policemen here. William Dillars, described by the prosecution as a "negro bootleg king," testified that he paid nearly \$200,000 for police protection of his liquor interests.

British Rum Ship, and Booze Seized

NEW YORK, April 15.—Captured after a thrilling 12-hour chase, during which shots were fired, the British three-masted schooner Madeline Adams, with \$450,000 worth of liquor aboard, was brought into port.

This latest dent in rum row was made after, it is alleged, the commander of the Madeline Adams had attempted to land 500 cases of whisky by bribing the crew of a coast guard cutter.

The Madeline Adams, with 9000 cases of liquor aboard, is now at anchor off the Statue of Liberty awaiting arraignment of its commander on the bribery charge.

NO CIRCUS IN BAY CITY
SAN FRANCISCO, April 15.—Spring days are gloomy one for San Francisco youngsters. The advance man for the circus has just come to town and discovered the only lot in the city large enough to hold the show has been improved. So there will be no circus this year.

Orange County to Be Represented At School Meet

Orange county, and particularly Santa Ana, will be well represented at the International Kindergarten union, which meets in Los Angeles, July 8-11, inclusive. It was announced today at the county and city education offices.

According to advices received by County Superintendent R. P. Mitchell, there will be three kinds of exhibits—commercial, historical—history of development of the modern kindergarten—and educational, showing progress.

Convention headquarters will be established at the Biltmore hotel. Meetings will be held at Trinity Auditorium, Biltmore ballroom; University of California, Southern Branch; Friday morning club, and University of Southern California.

A special feature of the convention will be the attendance of representatives from European countries, South American republics, China, Japan, Philippines and other places.

LOCAL LADS TO ATTEND STATE 'Y' CONVENTION

Boys of Santa Ana connected with the Y. M. C. A. are to have a big day at the state convention to be held next Saturday at Hollywood. Arrangements have been made for entertaining 7000 students.

Two conventions are scheduled. College men will meet for a weekend session. The delegates of the other clubs, which include the H-Y and Pioneer sections, will attend the Saturday convention.

Santa Ana is allowed to send 125 from the younger boys' clubs and a small delegation from the junior college. According to James McDill, local boys' secretary, the quota from here will be more than filled.

On Friday evening, there is to be a sectional meeting in Santa Ana for delegates from the south district of Southern California. The meeting will be held in the "Y" building at 8:30 o'clock. J. A. Elliott, member of the national council in the student department, will speak.

On Saturday, all delegates have been given an invitation to attend a special showing of "The Iron Horse," in Grauman's Hollywood theater, at 9:30 o'clock in the morning. At 1 o'clock, the younger boys will have luncheon in the Hollywood bowl. A program of stunts, music, and surprise events there will complete the convention.

College representatives are also to attend the showing of "The Iron Horse," afterwards going to luncheon in the Hollywood Athletic club-house. The men are then to go to the Pacific Palisades, where the sessions will continue until Sunday. "Dad" Elliott, with other speakers, will be present.

Movie Chatterbox

"BEN-HUR" EXPENSIVE
More than \$2,000,000 has been lavished the past 12 months on the filming of "Ben Hur" in Rome, Italy, and today the picture is back in the throes of production at Hollywood.

Fully another six months with an additional outlay of \$1,000,000 will be required to complete the picture. General Lew Wallace's famous novel, it is estimated by officials of Metro-Goldwyn, producers.

The entire "Ben Hur" company has returned to Hollywood from the Eternal City where many of the scenes were filmed, admittedly under difficulties. Directors, players and cameramen are working overtime to speed production and retrieve lost time, but it will be several months before the picture is ready for release to the public.

In the returning troupe were Roman Navarro, who plays the part of Ben Hur; May McAvoy, who portrays the role of Esther; Carmel Myers, the exotic and passionate Iras; Francis X. Bushman, interpreter of the mighty Messala; Kathleen Key, who plays Tirzah; Claire McDowell, in the role of Ben Hur's mother, and Nigel de Bruiler, as Simondes, the bond slave.

Director Fred Niblo, who brought the players back to the States, denied on his return that the political situation in Italy and labor troubles with Italian workmen had interfered with progress of the picture in Rome.

"The weather was not favorable in Italy and it would have delayed our production plans several months had we remained in Rome to complete the picture," he said.

"The Italian government offered us every cooperation and we employed thousands of Roman workmen and extras for some of the most important and picturesque scenes of the production."

Niblo added, however, that the Italian workers were somewhat slow as compared to Hollywood's expert technical crews and that the elaborate sets and structures required as background for the various Roman settings were not constructed as rapidly as expected.

Expenses mounted rapidly, too, it was pointed out, when the Metro-Goldwyn-Mayer company was compelled to lease 400 acres of ground upon which to build the exterior sets, including the Jopa Gate of Jerusalem, the Tribunal, Jerusalem streets and city, and the Circus Maximus, where a portion of the chariot race was filmed.

Other items which drew heavily on the producers' exchequer included the importation of 40 black men and women from Tripoli, North Africa; a caravan of camels from the heart of Egypt; 20,000 costumes from Berlin, and the building of a veritable fleet of galley ships for the Roman naval battle which was filmed at Leghorn, a sea-coast town jutting into the Mediterranean.

The final million, however, will

be spent in America, and the Arizona desert will provide a setting for the most thrilling portion of the chariot race.

But the question remains, will movie fans pay more than \$3,000,000 to see the story on the screen and assure a profit for the film producers?

QUITTS FAGS FOR PIPE

Pauline Garon, of the younger set of screen stars, caused at least a mild tremor in Hollywood when she quit cigarettes and took to smoking a pipe.

Some of the older stars flipped the ashes from their monogrammed cigarettes and registered horror when the actress appeared on the set with a man-sized briar which

she smoked with perfect unconcern. Others, however, failed to record even a temporary shock.

"It's merely because I like a pipe and there's less danger of fire with one," explained the actress. A cigarette is more apt to burn the end of one's dressing table or set fire to the things hanging on the wall.

"It may look funny at first, but I expect girls will be smoking pipes soon just like the men. Why not?"

REACHES SPITZENBERGEN

KING'S BAY, Spitzbergen, April 15.—"The Fram," polar exploration craft of Amundsen, has arrived here, the "Hobby" being belayed a day by fog.

she smoked with perfect unconcern. Others, however, failed to record even a temporary shock.

"It's merely because I like a pipe and there's less danger of fire with one," explained the actress. A cigarette is more apt to burn the end of one's dressing table or set fire to the things hanging on the wall.

"It may look funny at first, but I expect girls will be smoking pipes soon just like the men. Why not?"

Deny Rehearing On Ferry Rates

SAN FRANCISCO, April 15.—The state railroad commission has denied petitions of the Golden Gate Ferry company and the Rodeo-Vallejo ferry for a rehearing of the recent order reducing rates on these two lines.

The commission's action means the reduced rates will go into effect May 1, unless court order intervenes.

The rates on automobiles will be lowered from 75 to 55 cents on the Rodeo-Vallejo line, and from \$1 to 65 cents on the Golden Gate ferry.

Chamber Backs Placentia In Law Amendment

FULLERTON, April 15.—A qualified endorsement to Placentia's agitation for legislation to permit her to decide by ballot whether or not she shall remain a part of the Fullerton union high school district, was given by the local chamber of commerce in a letter addressed to Assemblyman S. C. Hartnuff.

Representatives of the Placentia district are endeavoring to interpose state lawmakers in passing an

amendment to the school law removing the technicality which at present prohibits their district from forming a high school district. The present law states that no high school district may be formed within three miles of an established high school and though Placentia's boundary line is just within this distance of the Fullerton school, the Placentians contend that any community ought to have the right of deciding by ballot such a question.

The letter sent by the local chamber was in response to a request from the Placentia chamber for an endorsement. In endorsing the move, the local chamber made it clear that they would not favor any legislation which might jeopardize the status of other members of the district such as Olinda or Yorba Linda.

The roof of the famous Crystal Palace in London contains fourteen acres of glass.

HOW TO ANSWER BLIND CLASSIFIED ADS

In answering blind addresses (for instance, L. Box 35, Register, or other similar addresses), please be careful to use the precise address given in the ad. Write address plainly. Letters brought to the Register office do not require stamps. Always enclose your answer in sealed envelope.
T. F. (TILL FORBID) AD
If advertiser who has made application for credit and opened an account with The Register Credit Department in the regular form desires to have any "line" advertisement published continually, he must further notify the office by signing a "line" order to that effect. An advertisement thus begun will appear regularly until countermanded by written order.
BOX OFFICE REPLIES
The Register postoffice department is conducted for the benefit of patrons who wish answers to come to the office. Advertisers are furnished with identification cards, which must be presented at The Register office. For the protection of our patrons, replies are not given out except on presentation of such card.
No record is kept of the names and addresses of patrons using The Register postoffice, and therefore no information concerning these advertisers can be supplied. A charge is made for the words "Box A-254, care The Register."

Autos For Sale (Continued)

New Used Cars
Every car we have in stock is either nearly new or one of those makes with proven quality, reconditioned. We make NEW every car that is worth reconditioning. The nearly new ones do not need it. The few older, off brand cars which we are sometimes forced to handle are sold as trade-ins are sold as junk, usually to the junk dealer. We do not recommend them.

LEGION NIGHT TO BE PLAY FEATURE

(Continued From Page 7.)

Duggan, who will be seen this time as "Morgan Pell," an extremely disliked husband, and Gene Douglas, portraying a western ranch hand, uncouth, illiterate—and in love.

They will make their bows as Community Players and their comrades of the post are eagerly awaiting the first night, that they may see what the two can do under the direction of Gerwing.

Seat reservations must be made before Saturday, after which date the reserved section will be added to the general seat sales at the Santa Ana book store. Duggan has displayed his versatility, for in addition to the smooth performance as a stage actor, he is adding his skills as a painter. His special work, his clever poster work, his special and colorful drawing of "The Bad Man," a bit of which is shown here, is attracting a great deal of attention where it is on display at the Shafter Music house.

S. A. COW BREAKS BUTTERFAT RECORD

(Continued From Page 7.)

129 pounds of butterfat in 3144.5 pounds of milk.

For the United States the record is held by Hester Astle Korn, belonging to M. J. Smiley, Bellefonte, Pa., with 142.8 pounds of butterfat and 2567.7 pounds of milk.

Legislative Notice

and contiguous to Lots 80, 81, and 82, and all of which is more fully described in said Resolution of Intention No. 172, to which reference is hereby made for further details.

Intention is hereby given that on Monday, the 14th day of May, 1925, at 7:30 o'clock P. M. in the Court Room of the City of Santa Ana, California, the Board of Supervisors of the County of Orange, State of California, will meet in public session to consider and act upon the petition of J. M. BACKS, Clerk of the City of Santa Ana, California, for the purpose of amending the Charter of the City of Santa Ana, California, by adding to the Charter of the City of Santa Ana, California, the following provisions:

CLYDE BISHOP, Attorney for Petitioner.

NOTICE OF PUBLIC WORK

NOTICE IS HEREBY GIVEN THAT the Board of Trustees of the City of Santa Ana, on the 30th day of March, 1925, passed Resolution of Intention No. 172, for public work, to improve the City of Santa Ana, California, by the vacating and abandonment of three certain alleys, to-wit:

1. A twenty (20) foot alley shown on map of Tract No. 425 on file in the City of Santa Ana, California, extending from Riverside Drive to Hollister Drive and lying adjacent and contiguous to Lots 61 to 71 inclusive, and contiguous to Lot 72, and to the alley shown on map of Tract No. 425, extending from Flower Street to the North line of a ten (10) foot alley at the South of Tract No. 425, and lying adjacent and contiguous to Lots 169 to 174 inclusive, and contiguous to Lot 175, which is more fully described in said Resolution of Intention No. 172.

2. And a ten (10) foot alley extending from Riverside Drive to Hollister Drive, said alley being adjacent to the alley shown on map of Tract No. 425, extending from Flower Street to the North line of a ten (10) foot alley at the South of Tract No. 425, and lying adjacent and contiguous to Lots 169 to 174 inclusive, and contiguous to Lot 175, which is more fully described in said Resolution of Intention No. 172.

EDWARD L. RUST, City Clerk.

PLUMES STARE CROSSWORD PUZZLE

Here is the answer to yesterday's Crossword Puzzle.

CROSSWORD PUZZLE

NAME TRUSTEES ON BUDGET COMMITTEE

President Alexander Brownridge, of the Santa Ana city board of education, today appointed trustees F. L. Andrews and Charles F. Smith as members of the 1925-26 school budget committee.

The committee is charged with examining and consolidating the various estimates of requirements submitted by the principals of the various schools for the coming school year.

At the request of Supt. J. A. Cranston, all members of the board will visit the leading vocational high schools in the Southland to secure first hand information of what is accomplished in these schools in the way of vocational education. Among schools to be visited for this purpose is the polytechnic high school, of Long Beach, Roosevelt high school, of Los Angeles, and other educational institutions where emphasis is given to vocational training.

Superintendent Cranston told the members that in the matter of vocational training the Santa Ana high school was forced to take a back seat when compared with other schools of corresponding size. In this connection he asked that the board members give earnest consideration to the budget estimates submitted by Principal D. K. Hammond of the high school.

HOLLYWOOD WINNER TO GET VILLA BOUT

LOS ANGELES, April 15.—An opponent for Pancho Villa when he visits the Southland next month may be selected here Friday night when the referee gives his decision in the Fidel LaBarba-Newspaper Bruin fight.

The winner of the fight will have a right to claim the Pacific Coast flyweight championship and demand a fight with the little world champion.

LaBarba, who jumped to the ranks of a professional last fall, has won a championship in the Olympic games at Paris, is a combination boxer and fighter who has scored victories over the best on the coast.

Brown hails from Sioux City and has won many fights in the East and Middle West.

Health Service Is Agreed Upon By Orange Board

ORANGE, April 15.—Decision in favor of the new plan for city health service, which the county health department plans to inaugurate this year, was reached yesterday afternoon by the Orange city board of trustees, meeting in an adjourned session.

As outlined to the trustees at their last meeting, by Dr. V. G. Presson, county health physician, the new system will cost Orange approximately \$8000, about 1600 less than the previous system. The city, signing the contracts under the new plan will be charged 10 cents per capita per year, and other necessary funds will be furnished by the county, through taxation.

College Literary Club Will Gather

At the meeting of the Junior College Literary club, to be held tonight, Miss Dorothy Cartwright will review "The New State," a recent book by Miss M. P. Follett.

The students are to meet at 7:30 o'clock in the home of Morton Stephenson, 433 West Santa Clara street. Mrs. Robert Northcross, English teacher the junior college, is the advisor of the literary organization.

According to President Stephenson, it is planned to hear several other students at future meetings.

SOCIAL AND PERSONAL NEWS OF ORANGE

ORANGE, April 15.—"We Get Out of Anything What We Put In To It," was the subject of a talk given Monday night, at the meeting of the Orange Business and Professional Women's club, by Leon Whitsett. The remainder of the evening's program consisted of vocal selections by Mrs. Frank T. Goode, accompanied by Mrs. W. A. Martin, and a humorous reading, "Here Comes the Bride," by Kate Langley Bond.

Memorial Day poppies will be sold this year on Friday, May 29. It was decided Monday at the meeting of the Orange American Legion auxiliary. It is probable that the bulk of the proceeds from the sale will be dedicated to the child welfare program of the Legion and auxiliary.

A pot luck dinner for new and old members will be served at the meeting to be held Monday, April 27.

Mr. and Mrs. R. D. Barkley, of Long Beach, are visiting here for a few days with Mr. and Mrs. E. Walpuk.

Mr. and Mrs. C. F. Van Zandt have returned to their home in Gardena, following a week-end visit here in the home of Mr. and Mrs. A. P. M. Brown.

Miss Iva L. Reeves, principal of the Maple street school, is spending this week with relatives and friends in Phoenix, Arizona.

Mr. and Mrs. Sam Marquis, of Long Beach, have returned to their home after a brief visit here with Mrs. Martha Newby, Sunshine apartments.

A. R. Keiser, of Butler, Mo., is visiting here with his sisters, Mesdames J. A. Green and J. H. Spurgin.

Japan is the largest market for American softwoods, taking more than 800,000,000 feet from the United States last year.

Financial and Market News

WHEAT PRICES IN SHARP DECLINE

CHICAGO, April 15.—Wheat prices slumped on the Chicago Board of Trade today, May wheat losing 8 1/2c from the previous close. Today's close was \$2.50 a bushel. July lost 3 1/2c and September 1 1/2c.

Corn lost from 3 1/4 to 3 1/2c and oats from 1 1/2 to 1 3/4c.

Lack of general demand was held responsible for the heavy selling.

KANSAS CITY, Mo., April 15.—May wheat dropped 10c on the Board of Trade here today. Grain men were unable to explain the slump since the day's gain was regarded as bullish.

An opening top of \$1.53 1/2, May wheat dropped to \$1.43 1/2 and closed at \$1.44 1/2.

April and September futures were down 4 1/2 and 3 1/2 from yesterday.

PORTLAND, Ore., April 15.—Cash wheat on the Portland Merchants' exchange was down today from \$1.50 to \$1.45 a bushel. The market was slumped eight cents to \$1.35.

WALL ST. JOURNAL

NEW YORK, April 15.—Stocks were given opportunity today to demonstrate that current recovery was something more than a rebound from an overdone condition. At the previous close industrial shares had recovered 6 1/2 points from their average low on the recent bear.

Professionals apparently springing that the rally had proved sufficiently extensive for the moment, renewed pressure on the principal speculative issues, and their gains had taken place.

As a basis for bearing operations, the market was again subjected to summaries which spoke of continued curtailment in pig iron production as well as in output of finished steel.

After recessions of from one to four points among the chief industrial groups had taken place, the general list snapped back in vigorous style under the leadership of steel common, which forged into new high ground in recovery.

Early trading figures for the week ended April 4 showed the country's railroads were handling a volume of traffic larger than the year before, though some falling off took place in comparison with the preceding week of this year. Since the beginning of the year 12,857,810 cars have been loaded against 12,450,000 in the week ended April 4.

This evidence of the remarkable volume of domestic business coupled with the March foreign trade figures which showed our exports up 19 per cent in nine months to April 1 was one tenth larger than a year ago and three times larger than the preceding year.

Imparted a strong tone to stocks at the opening today.

After a lull, the market continued to display extraordinary buoyancy.

SAN FRANCISCO PROD.

SAN FRANCISCO, April 15.—Trading improved somewhat on the whole, but fruit and vegetable prices were slightly increased but with good demand and prices higher on many items.

Local strawberries sold from 125-160 per drawer, while fancy grades brought as high as 40c.

Apples: Boxes California Newtouns fancy 3 1/2 tiers 275-315; four tiers 250-300; boxes Oregon 225-250; Washington Winesaps 350; fancy 275-300; Arkansas Blacks fancy 275-300; Newtouns 200-250.

Avocados: Southern 800-800 dozen according to size; Florida 400-600 dozen.

BANK CLEARINGS

SAN FRANCISCO—\$32,500,000
OAKLAND—\$2,381,100
BERKELEY—\$1,874,842
SEATTLE—\$9,930,332
PORTLAND—\$7,025,151
TACOMA—\$4,131,000

Hold Last Rites for Newspaperman

Impressive funeral services were held yesterday at 2 p. m. at the Smith and Tuthill undertaking parlors, for William Ulrich, San Francisco newspaperman, who died here Sunday at the home of his mother, Mrs. J. W. Bishop.

The Rev. William E. Roberts, pastor of the First Presbyterian church, officiated. The minister made reference to the brilliant mind of the dead man and the thought that their dear one was at rest.

Robert L. Brown sang "Crossing the Bar" and "The Rock of Ages," accompanied by Miss Ruth Armstrong, T. E. Stephenson, Horace Fine, H. A. Reuter and J. T. Van Why were pallbearers.

L. A. PRODUCE

LOS ANGELES, April 15.—Trading today was fairly active with a weak market. Artichokes, asparagus, new potatoes and squash are all lower with heavy receipts. Strawberry receipts are liberal and prices on Imperial valley stock lower. Peas continue firm with light receipts.

CHICAGO BD. OF TRADE

CHICAGO, April 15.—Grains were nervous and erratic on the Board of Trade. General liquidation caused sharp declines after a sensational midday recovery. Disappointment over failure of export business and general weakness were factors.

Wheat—Chicago: No. 2, 102 1/2; No. 3, 102 1/2; No. 4, 102 1/2; No. 5, 102 1/2; No. 6, 102 1/2; No. 7, 102 1/2; No. 8, 102 1/2; No. 9, 102 1/2; No. 10, 102 1/2; No. 11, 102 1/2; No. 12, 102 1/2; No. 13, 102 1/2; No. 14, 102 1/2; No. 15, 102 1/2; No. 16, 102 1/2; No. 17, 102 1/2; No. 18, 102 1/2; No. 19, 102 1/2; No. 20, 102 1/2; No. 21, 102 1/2; No. 22, 102 1/2; No. 23, 102 1/2; No. 24, 102 1/2; No. 25, 102 1/2; No. 26, 102 1/2; No. 27, 102 1/2; No. 28, 102 1/2; No. 29, 102 1/2; No. 30, 102 1/2; No. 31, 102 1/2; No. 32, 102 1/2; No. 33, 102 1/2; No. 34, 102 1/2; No. 35, 102 1/2; No. 36, 102 1/2; No. 37, 102 1/2; No. 38, 102 1/2; No. 39, 102 1/2; No.

ENFORCEMENT OF DRY LAWS IN LIMELIGHT

WASHINGTON, April 10.—Violence and dishonesty in prohibition law enforcement are once more in the limelight.

Investigation in connection with the work of the senate committee headed by Senator Couzens has revealed 33 cases during the last year in which federal prohibition officers have been arrested on criminal charges ranging from drunkenness to first degree murder.

Fourteen of the cases so far revealed have been presented to the senate committee with a recommendation for immediate action.

Here are some of the cases presented to the committee:

Federal indictment of O. H. P. Malley, federal prohibition agent, charged with accepting \$10,000 in bribes from Montana breweries and drug concerns.

Charge Unlawful Withdrawal Indictment asked by Illinois State's Attorney Crowe against Leon Brook, first assistant federal prohibition director of Illinois.

Iowa and Wisconsin, on a charge of unlawfully withdrawing 9000 cases of whiskey.

Gus J. Simmons, federal prohibition officer, jailed in connection with fatal shooting of Guy Meadows of Hinton, W. Va.

Prohibition Officer Joseph Smith, identified in New York by Charles H. Dave, storekeeper of British steamer Orduna, as the bootlegger who had been buying liquor from the ship's crew for three years.

Indictment of Prohibition Officer Woodfin for murder of Grover Bradley in Northampton county, N. C.

Arrest by intelligence unit agents of Major James J. Johnson, attorney for the prohibition unit under Commissioner Roy A. Haynes, on bribery charges.

Prohibition Officer Samuel Kupferman held on charges of homicide and felonious assault in connection with the fatal shooting of Thomas Monteforte at Brooklyn, N. Y.

Herrin Case Comes Up Alleged atrocities at Herrin, Ill., said to have been incited by S. Glenn Young, Ku Klux Klan gunman, sent to Williamson county with a commission from Commissioner Roy Haynes. At the time of his death, Young was under indictments charging that numerous persons had been robbed, beaten, abused and secretly imprisoned during raids and riots incited by him.

Acquittal on a legal technicality of L. T. Queen, J. H. Painter, M. L. Wright and L. M. Tolbert, prohibition men, charged with firing on an automobile carrying Miss Mary Gwynn and Miss Rosalie Bowen, Y. W. C. A. secretaries, near Greenville, S. C.

Cases waiting to be presented to the committee are those of:

Prohibition Officer John H. Vail, charged with first degree murder for the killing of James S. White, deputy California state game commissioner, while raiding a hotel at Castella, Calif. Justice of Peace W. W. Middleton declared at the preliminary hearing that Vail had no excuse for the shooting.

Tried For Extortion Arthur H. Curran, Elton Apt. Isaac E. Martin, Ray Kirk, Harvey Storms and Manny Wilcox, prohibition agents on trial in Kansas City for bribery and extortion as members of a combine to collect graft money from bootleggers.

Firing by a coast guard gun chaser on a boat carrying army engineers back from overseeing dredging work outside San Francisco Bay.

The killing of "Old Bill" Tilgham, 71, famous as the sheriff who broke up the Dalton gang of train robbers. Tilgham was shot to death while attempting to quiet an alleged disorderly automobile party in Cromwell, Okla. Prohibition Agent Wylie Lynn, one of the party, said to have admitted the shooting, was arrested.

Shooting of Ellis M. Ivey and Hernden Thomas, both of Atlanta near Greenville, S. C., when they stopped to drink from their water canteens by the roadside while touring. Prohibition Officer Ruben Gosnell was arrested on a charge of assault with intent to kill.

And—last but not least—the case of William H. Anderson, head of the Anti-Saloon league in New York, who just finished serving a stretch in Sing Sing for forgery and misappropriation of funds.

Nab 10 as Members of Car Theft Ring

LOS ANGELES, April 15.—Eight youths, varying in ages from 14 to 17, were arrested by police here and accused of being the tools of two leaders of a gigantic auto theft ring operating in Southern California.

John Wagner and Sam Savella, proprietors of a junk yard and auto parts depot, alleged ringleaders of the theft ring, were also arrested. Officers said they had confessions from several of the boys implicating Wagner and Savella.

The youthful suspects were all arrested while stealing automobiles, police said. Wagner and Savella were charged with receiving stolen property.

Indict Ex-Convict When Officer Dies

SAN FRANCISCO, April 15.—With Mayor James Rolph Jr. delivering the eulogy and with police ceremonies, funeral services were held yesterday for Patrolman Geo. Campbell, who died from wounds received in arresting a bank bandit April 9. Campbell's slayer, Felix Sloper, ex-convict, is under indictment for the murder, a true bill having been returned Monday by the grand jury. If the policeman had not died, Sloper might have been returned to Fresno, where he was wanted for a bank robbery at Clovis.

One Tree Bears Oranges, Lemons and Grapefruit

CAPE TOWN, South Africa, April 15.—In the Transvaal a remarkable tree has been grown as an experiment.

A lemon tree was trimmed until only three branches remained. Upon one was grafted an orange, upon another a grapefruit, while the third was allowed to remain a lemon, with the result that the tree is now bearing all three fruits at once.

The tree has the dark and paler green leaves belonging to the various fruits.

About six specimens of each of the fruits grew on the tree this year.

Charge S. F. Man Embezzled Funds

SAN FRANCISCO, April 15.—Cornelius D. De Longh today stood accused of embezzling \$10,500 from the Anglo-California Trust company, where he was employed 15 years. De Longh was arrested on a warrant issued on complaint of the bank. De Longh is said by police to have confessed to the embezzlement, declaring he took the money to protect losses in a vending machine company and expected to return it to the bank. He was dropped from the bank's service two months ago, when the first shortage in his accounts was found by auditors.

Canada Reduces Japanese Fishers

WASHINGTON, April 15.—Further elimination of the Japanese fishermen operating in Canadian waters is contemplated by the Canadian government, according to information reaching here from Vancouver.

Canada reduced the number of licenses granted to Japanese by 40 per cent in 1922, and again by 15 per cent in 1924. Another 15 per cent cut contemplated, will leave only 30 per cent of the 1922 total in operation.

The contemplated cut has brought considerable protest from the salmon-canning interests.

It is pointed out that the number of white men engaged in Canadian salmon fishing has decreased in the same period. No reason has been given for this peculiar condition, but it is believed the average American or Canadian fisherman does not succeed as well as a fisher as does the Norwegian or the Japanese.

Blonde's Chance To Marry Is Best

CHICAGO, April 15.—Blondes are more successful than brunettes in winning a husband, according to Jeanne Ruere of New York, beauty specialist, in an address here.

"Statistics show there is an increase each year in the number of marriages where women have blonde hair," she said. "Formerly it was the raven-haired women who possessed more subtle charm in ways of winning a husband. But of late years, a majority of men have selected radiant-haired blondes."

"There have been many reasons given for this new color preference. Some opine it is because the fair-haired damsel is reputed to have a more amiable disposition. Others believe it is because the man of brunette type predominates, and since opposites attract, a dark man will naturally select a blonde."

Farm News of Orange County

ASSERT CITRUS GROWERS FACE READJUSTMENT

A pertinent report has just been received at the farm advisor's office from the bureau of economics, U. S. department of agriculture, which will be of particular interest to the citrus growers of California. For the information of Orange County growers it is given verbatim:

"Unless a large consumption of citrus fruits increases considerably and foreign markets are developed rapidly, the citrus fruit industry is confronted with an exceedingly difficult problem of readjustment. With a few exceptions, such as summer oranges and possibly some replacement plantings, no new acreage will be needed to supply the market for the next decade, except in the event of a severe freeze."

40,000,000 boxes in 1923. "Production of all citrus fruit increased from 29,000,000 boxes in 1909 to around 40,000,000 in 1923. If all the young non-bearing groves in existence at present are given sufficient care and attention to bring them into bearing, and if new and old trees continue to produce at the present rate, there will be a production of at least 70,000,000 boxes by 1930."

"Oranges show the greatest prospective increase. New plantings of oranges during the past few years in California have been sufficient only to maintain the present acreage of bearing trees, but more than 7,000,000 trees were planted in Florida in the five years, 1919 to 1924. There are large acreages of young grapefruit in both Florida and Texas. New plantings of grapefruit in Florida have been at the rate of from 250,000 to 500,000 trees per year since 1919 and a total of more than 1,000,000 have been planted in Texas during this time."

"Prices Going Down" "In recent years, there has been a downward trend in prices, especially of grapefruit and of oranges that are marketed during the winter season. Auction prices at New York for Florida oranges of Golden grade averaged \$6.07 per box during the season of 1919-20 and only \$3.27 in 1923-24. Prices of Florida grapefruit averaged \$3.72 per box in 1919-20 and \$4.55 in 1920-21 but only \$2.95 per box in 1923-24. The auction prices for a group of representative brands of California navel oranges averaged \$5.70 in 1919-20 and only \$3.67 in 1923-24. Prices for the 1924-25 season have not varied widely from the prices last year."

"Whole there is doubtless a possibility of increasing the number of carlot markets, it must be remembered that through redistribution from central markets, citrus fruit now reaches practically every market in the country and the problem, so far as domestic trade is concerned, is almost entirely one of stimulating the demand and increasing the consumption in the territory now being served."

"Must Increase Demand" Lemons and oranges are sent to market every month in the year but the bulk of oranges must be marketed in the period from November to June and practically all of the grapefruit comes to market during this period. The problem thus becomes one of stimulating demand particularly during the winter and spring months."

"It is to be expected that the growth of the population of the country will result in a corresponding growth in the demand for citrus fruits, but at present our population seems to be increasing at the rate of only one to two per cent a year. Thus, our population in 1930 will probably not be more than 10 per cent greater than it is at present, while the prospects are that citrus production will be at a rate of more than a relatively small amount of the fruit."

"By-Products Asset" "The United States may look for increased exports in her citrus fruits. In 1924, the total oranges exported amounted to over 2,500,000 boxes. While this is only a small amount of the total production, the potential demand is of considerable importance. Most of this fruit went to Canada. The exports of citrus fruits to European countries is at present difficult because of competition with producing areas in the Mediterranean district, Palestine and South Africa. Transportation, especially from the Mediterranean countries, is at a cost much lower than from the United States to the various consuming centers in Northern European markets."

Riverside County Names Santa Ana Man Cow Tester

W. L. Gorzeman of Santa Ana has been appointed official cow tester for the Riverside County Cowtesting association. Gorzeman is an experienced tester, having been engaged for some time on this line of work in Fresno county.

He was chosen from a number of applicants for the position, which was made vacant by the resignation of Mark Butterfield of Riverside. Butterfield has gone to Los Angeles to take a position with Howard Warren, former San Jacinto dairyman, who was recently named manager for the Dairyman's Feed and Supply company.

Glenn W. Wilkins of Arlington, who has been associated with Butterfield for some time, will continue as tester, working with Gorzeman.

ORCHARD HEATING TESTS UNDER WAY

Knowing the widespread interest which exists in the Southland regarding orchard heating, the Register wrote to H. J. Baade, county agent of Napa county, asking him for information on the electric orchard heating tests which have been under way there. His reply follows:

"We have had numerous inquiries at our office regarding the status of the electric orchard heating project. At the present time, this is in the hands of the power companies which have agreed to do the installation work and carry on the experiments. The power companies co-operating are the Great Western Power company, Westinghouse Electric and Manufacturing company and the Electric Development company."

"At a recent conference held in my office, which was attended by Professor Moses of the college of agriculture at Davis, and who is executive secretary of the California state committee on the relation of electricity to agriculture, and the representatives of the different power companies, it was mutually agreed that the project should rest in the hands of the concerns above mentioned."

"At the present time, these concerns are experimenting with various types of heating appliances. As soon as a practical one has been found, the work of installing the same in the orchards of Napa county will proceed. These installations should be made in the very near future, but no equipment can be installed until something practical has been found."

'BACK TO FARM' TREK UNDER WAY

CHICAGO, April 15.—Better farm prices and general government protection of the farmer have brought about a "back to the farm" movement.

Dr. Herman Janss, director of the farm land division of the National Association of Real Estate boards, reports this movement has taken place through last year and is continuing in greater proportions this year.

A survey made by E. M. Fisher, of the same organization, shows that there was a 42 per cent increase in farm sales in 31 states and two Canadian provinces last year, over the previous year. In addition, he reports, there is evidence of a 40 to 50 per cent increase of farm sales in both countries.

The best reports of rural land sales come from Kansas and Nebraska, where conditions improved following the rise in wheat prices. This increase in the movement back to the farm is attributed to three factors: Stabilization of higher prices for farm products, laws passed in nearly half the states protecting buyers from irresponsible real estate dealers, and a general return of the feeling of confidence in farming.

"An enormous amount of this new life in farm buying is traceable directly to results obtained by recent laws passed in 19 states to protect farm buyers from land sharks," says Dr. Janss. "The majority of the laws license and bond all real estate dealers and prevent unlicensed dealers from dealing in land. Most of them carry fine and prison penalties."

NEW AGRICULTURAL CHIEF WANTS TO PLACE FARMING IN U. S. ON BUSINESS BASIS

WASHINGTON, April 15.—Putting farming on a business basis is the problem Secretary of Agriculture Jardine is trying to solve. It involves what amounts practically to a revolution in the department of which he is the new head.

Past secretaries of agriculture have concentrated on the task of teaching the farmer how to farm. The new secretary's experience tells him that the present-day farmer has pretty thoroughly learned how.

He doesn't propose that the department shall abandon the study of agriculture as a science, but he does maintain that this is no longer the principal part of its job. What does it avail the farmer, Secretary Jardine asks, to know all about the science of agriculture if he can't make it pay? If he can't, why can't he? Because he isn't enough of a business man, the secretary holds. So now, the essential thing is to develop him into one—still a farmer, but in addition to that, a capable business man.

Farmers Lack Credits. No, says Secretary Jardine, ability to make his land produce adequately isn't what the farmer of 1925 lacks. He lacks access to such credits as are available, on sound security, to other business men. He needs facilities for profitably marketing what he does produce. The secretary wants legislation which will assist agriculture to obtain the credits it needs and is entitled to. He wants to simplify the marketing of farm products, to cut down intermediate handling, between the farmer and the "ultimate consumer."

Reflects Coolidge Views. Then, when he's been trained in business matters, Secretary Jardine is confident, the American farmer will be all right. Price-fixing, curtailment of production and other regulation of details he considers impractical.

These are President Coolidge's views, and because Secretary Jardine reflects them so accurately that the president picked him out of a large field for the portfolio of agriculture.

A good many of the old times in the department, however, don't like so radical a departure from the policies they have been familiar with for years, and a decided shakeup probably will be necessary before the new regime functions just as it should.

Indeed, a number of changes have been made already and more are reported in prospect.

POINTS OUT NEED FOR INSPECTIONS

By A. A. BROCK
County Horticultural Commissioner

Quite often the argument is advanced that some of the insect pests and plant diseases against which quarantines are placed by the state would not be a menace here because of our peculiar climatic conditions, some feeling that many of the insects would be unable to survive the winters and others feeling that it would be impossible for some of the bacterial and fungus diseases to increase and spread with the rapidity with which they do under more humid conditions.

If the agricultural interests of this state would be just as safe without all of the inspection and quarantine laws we now have, it of course would be a great saving and would lessen the tax burden, but I believe that when we study some of the situations in other countries and other states where it seems that a few years ago there was no adequate protection by inspection and quarantine laws, we will then understand better why every effort is being made to keep out certain insect pests and plant diseases which have proved a serious menace to agriculture in other countries and other states of the union.

Citrus Canker Expensive. One of the most striking examples that has been called to the attention of the agricultural interests during recent years was the outbreak of citrus canker in Florida. We note in an article, appearing in a recent bulletin published by that state, some figures on the successful campaign in eradicating this dreaded disease. It was first discovered there in 1912 and as soon as a determination of an eradication campaign. To date, they have expended for the work, \$1,718,037.45. A careful inspection was made and each infected tree destroyed in this campaign 252,024 citrus grove trees and 3,062,785 citrus nursery trees. A conservative estimate placed on values of these trees would mean a loss to the growers of that state of something over \$11,000,000, plus the actual cost of eradication, which brings the loss of property and expenditures for eradication up to something over \$13,000,000.

Another example is the Mexican orange maggot. We are told that the result that higher vines were produced, more vigorous and more erect. It retains the green growing condition for a longer time, with the result that more blossoms are produced, more pods and more peas to each pod.

Take **CARDUI** The Woman's Tonic

EXPERIMENTS WITH POULTRY TOLD BY CORY

By W. M. CORY
Assistant Farm Advisor

Most poultrymen now realize the possibility and many the economic necessity of eliminating unprofitable birds from the flock. It is important to learn how to detect the inefficient ones so that they may be eliminated as early as possible.

From an economical and efficiency viewpoint, it is quite important that the birds which, because of certain latent weaknesses or imperfections, are handicapped in the matter of profitable production, be removed from the flock as soon as possible and sold for meat before actual losses are incurred in maintenance and in mortality.

Conduct Experiments. Experiments have been conducted in recent years at various stations to determine functional differences, particularly the relative egg producing powers of pullets based upon the length of the maturing period, or the period of time between hatching and the laying of the first egg. Favorable environment might cause certain potentially late pullets to begin laying early and adverse environment might retard a potentially early layer. However, in general, there would be a tendency for these variables to counteract each other when large numbers of birds are raised.

In these experiments, where the pullets were segregated at the age of four and a half months, into three groups, early, medium and late maturing, the early maturing group, without exception, laid a larger number of eggs at less cost with a consequent greater profit per bird. They also laid fewer small eggs, gained greater weight, and suffered less mortality than either the medium or late maturing.

Where cost accounts are kept, the late maturing just about broke even. Whereas, the early maturing returned a profit over cost of feed, labor, depreciation on stock and equipment, interest on investment, etc.

Another interesting point noted was the fact that in no month did the late maturing pullets lay so many eggs as did the early maturing groups.

From observations noted we may draw the following general conclusions:

1. Ten to 15 per cent of the slowest maturing pullets in the average flock could profitably be culled out and disposed of at four and one-half to six months of age.

2. Each of the segregated groups developed much better following segregation.

3. Segregation assists in a more systematic and intelligent culling the following year.

4. Segregation also assists in selecting the best birds in the flock for breeding purposes, since a large percentage of the strongest and best producers apparently come from the early maturing pullets.

systematic and intelligent culling the following year.

4. Segregation also assists in selecting the best birds in the flock for breeding purposes, since a large percentage of the strongest and best producers apparently come from the early maturing pullets.

ATTORNEY MAY STAND

SAN FRANCISCO, April 15.—Attorney does not have to sit down in court while examining witnesses, even should the judge order him to do so, the district court appeals ruled in finding Frank Culien, Fresno lawyer, not guilty

Permanent roads are a good investment—not an expense

Battling Your Way Into Town

It was a glorious trip. The setting sun proclaims the day about done.

And now the battle starts. It will be dark long before you reach home.

What a jam! You barely crawl along. You stop. You start. You creep ahead a few yards. Again you jam on the brakes.

Cars! Cars! Cars! Endlessly in front of you, endlessly behind you.

The driver just ahead stops suddenly. You barely miss bumping into his car.

On-coming cars honk an angry warning if you attempt to turn out. The road is too narrow.

Intersecting highways also are jammed with traffic. At every intersection again you wait, doggedly clutching the wheel in silent wrath.

At last, after literally fighting your way over the road, you swing into your own driveway.

Yes, it was a glorious trip, but—

Don't blame your highway authorities. They are ready to do their part, but they must have your support. Tell them you are ready to invest in more and wider Concrete Highways now.

You know an early start means early relief.

JUSTICE PLEA OF DEAD MAN BEFORE COURT

WASHINGTON, April 15.—The U. S. supreme court late yesterday took under advisement the case of the late Frank S. Myers, ousted postmaster of Portland, Ore., involving the president's power to remove summarily appointive officials, following the final argument by Solicitor General Beck for the government, upholding the president.

The decision may be announced within a month, or it may not be announced for a year, depending upon the court's ability to reach a conclusion on the constitutional question involved.

Dead Man's Justice Claim
Over a dead man's claim to justice from the government, constitutional lawyers debated in the nation's highest court the question of the president's power to remove the public officials he appoints.

Deliberations of the pioneers who drafted the constitution of the United States, 140 years ago, were aired as the court resumed hearing of the second argument of the case of Myers for \$838.

Myers was summarily ousted by President Wilson. He sued for the amount, which he would have received if not removed up to the end of his appointed time.

The name of Louis F. Myers, administrator of Myers' estate, was substituted in the suit.

Judge Will R. King for Mrs. Myers; Senator G. W. Pepper, invited as a friend of the court to oppose the government, and Solicitor General Beck, upholding the president's power, resumed argument yesterday. The case was given four hours for argument—twice the usual time.

Question of Executive Prerogative
The nature of the ground between the lines of well established legislative power and of entrenched executive prerogative is still a constitutional no-man's land," Pepper said. "I will continue to be such until this court shall determine under whose control the constitution intends it to be."

Justices of the supreme court and all federal judges, he pointed out, hold office during good behavior, and can be removed only by impeachment, he said, "but the constitution is silent on all other officers."

The makers of the constitution argued for a long time on this point, he recalled, but the provision as finally adopted gave the president, "with the advice and consent of the senate," power to appoint officials. No provision was made regarding the removal of these same officers, although discussion of the question was extended.

"It was not the intention of the framers of the constitution that officers of the United States should be made officers or servants of the president," Pepper said. "Had this been the intention he alone would have been permitted to select them."

WHITE HOUSE TO GET OVERHAULING
WASHINGTON, April 15.—The day after President Coolidge departs for his contemplated summer vacation in New England, a corps of workmen will assume control of the White House and give the mansion a complete renovation.

Funds are always available for repairs to the mansion, but according to custom, \$50,000 is appropriated every four years, at the beginning of a new administration for a complete reconditioning of the president's official residence.

Due to the limited appropriation, the roof of the White House, which has been described as extremely dangerous, will not be replaced. Lieutenant Colonel Sherrill, in charge of public buildings and grounds, is having many sleepless nights attempting to figure how he can strengthen the roof and at the same time have sufficient funds for necessary and regular reconditioning work.

Shortly after Major Solbert, Sherrill's assistant, told a house committee that it was possible that the roof of the mansion would cave in under a heavy snowfall or be lifted by a violent wind storm. Congress appropriated \$50,000 for repairs to the White House. The inference was taken that part of the \$50,000 would be used in installing a new roof, but Sherrill says the money provided is insufficient.

Sherrill believes he may possibly find a way to economize on painting and decorative work and save in the mansion.

The entire mansion from basement to attic will be scrubbed. Paintings will be removed from the walls and relieved of their dust. Decorations along the walls will be touched up and a new elevator installed.

The White House housekeeper will be jubilant when workmen complete the installation of a new vacuum cleaning system. The system now in place is antiquated and the machine employed in gathering dust and dirt about the halls and rooms makes almost as much noise as a locomotive.

The outside walls of the mansion are expected to be whitened by several companies of the local fire department. It has always been the custom to call on the fire department to clear the porticoes and outer parts of the buildings of dust and dirt. Several hose lines are employed in this work. Several years ago, one hose line became unmanageable and a stream of water battered down one of the upper windows and partially flooded the second floor.

A portiers and tapestries throughout the buildings will be replaced and crystals on all chandeliers will be given a thorough bath.

Husband's Curses Rouse Policeman, Actress Asserts

LOS ANGELES, April 15.—Eula Mantecón, film actress, was beaten and cursed so loudly by her husband, Armando, that it attracted the attention of the policeman on his beat outside their home, according to a complaint for divorce filed here.

He also tore her clothing to bits on several occasions, the actress complained.

Pending receipt of a divorce, Miss Mantecón wants an injunction to restrain her husband from trailing her about the movie sets where she works.

GAS CONSUMERS PAY HEAVY TAX

WASHINGTON, April 15.—Approximately one-half the automobile owners of the United States pay gasoline taxes levied by the states.

Although 25 states and the District of Columbia levy gasoline taxes ranging from one to four cents a gallon, the states which do not levy these taxes have large automobile registrations in many cases, according to government figures for 1924 just given out.

The states which had no tax were Illinois, Iowa, Kansas, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Jersey, New York, Ohio, Rhode Island and Wisconsin. So far this year Kansas and Michigan have adopted gasoline taxes.

The amount paid in these taxes last year was \$79,734,490, of which \$48,711,526 was applied to construction of highways under the supervision of the state highway departments. A large amount of the remainder was turned over to county and local road funds.

The average amount paid in states which have gasoline taxes is \$10.30 per vehicle a year.

Capital Letter

WASHINGTON, April 15.—It may be a shame to take the money, but—

Any member of congress having conscientious scruples against accepting the recent pay increase that body voted itself will just have to accept it. If he doesn't take it willingly, it will be forced on him.

Such is the ruling of Comptroller General J. R. McCarl, who normally is the last man in the government to let loose of a penny that he doesn't have to part with.

In his job as independent auditor of Uncle Sam's expense, McCarl disallows all sorts of bills that people want paid.

But the stand McCarl takes in regard to congressional salaries is that the law says they are \$10,000 a year and \$10,000 they must be.

Any member who refuses to sign the payroll on the \$10,000 basis seeks to evade if not actually break the law, he holds. And of course that is not to be thought of.

The only legal course, McCarl rules, for members who do not feel they are worth \$10,000 a year as congressmen, is for them to accept the full amount, receipt for it, and then return such amount as they deem an overpayment to the treasury's "conscience fund."

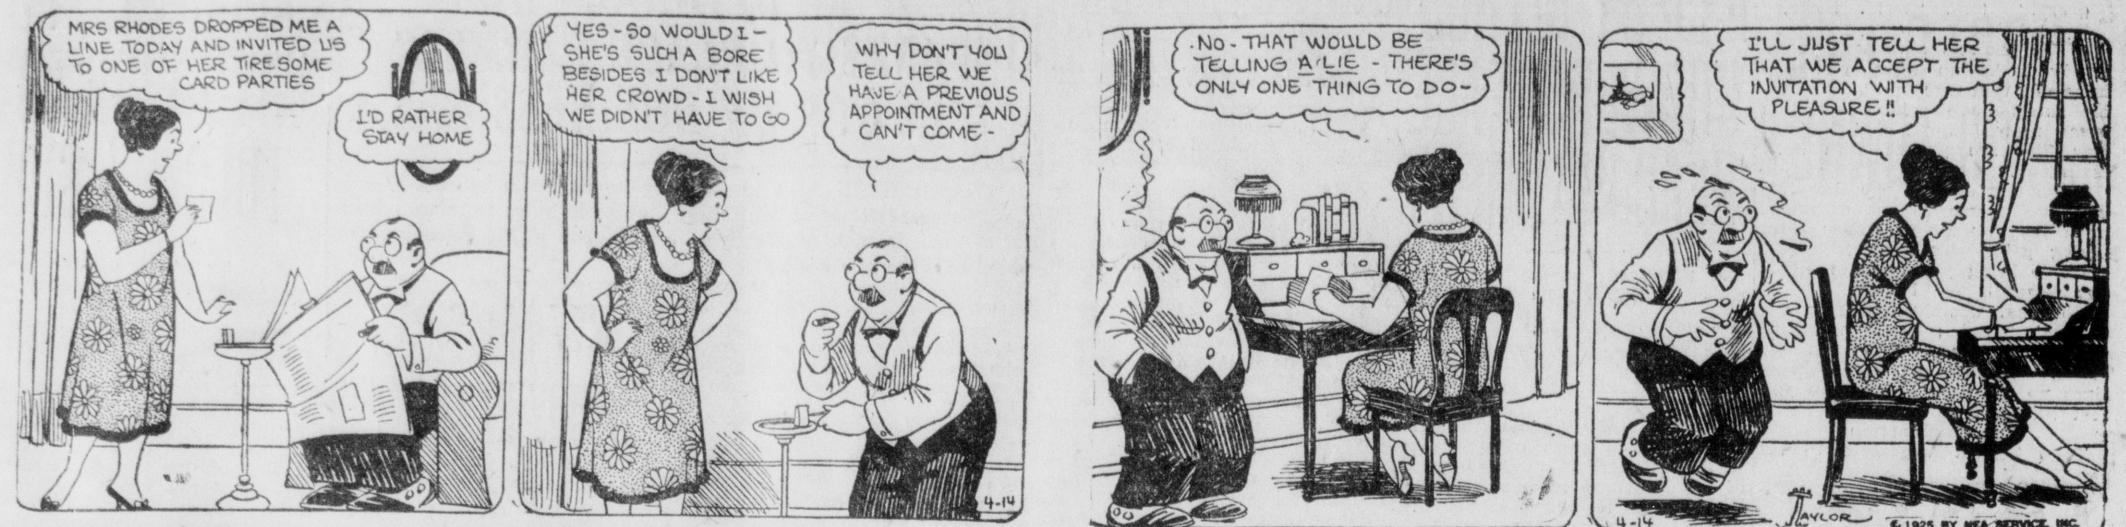

The McCarl ruling came as a result of the refusal of the Hon. Henry St. George Tucker of Lexington, Va., to accept his first salary check drawn at \$10,000 instead of \$7,500 a year.

It's a matter of family pride, it seems, with Hon. Henry St. George.

One of his ancestors was serving in congress when the bill was passed raising congressional salaries from \$5 to \$8 a day.

FROM ORANGE COUNTY TOWNS

BOND ISSUE IS URGED FOR HARBOR TOWNS

Would Raise \$225,000 to Pay For Enlargement of Newport Water System

NEWPORT BEACH, April 15.—Estimates presented last night at the regular meeting of the board of trustees, by City Engineer Paul Kressly, provide for the enlargement and reconstruction of the present water works system and the submission of a proposed bond issue to the voters for \$225,000, the cost of the project.

Considerable reluctance was manifested among the trustees in the calling of such an election, because it was felt the people did not desire the additional voting of more bonds, and the board members stated they were simply presenting the matter at this time, before actually ordering an election proceeding, in order to find out the sentiment of the community on whether such a vote would carry.

Low Water Pressure.
The question of an improved water system has been an urgent one for more than a year. The rapid growth of the city has long forced a 24-hour service on the pumping plants and reservoirs. Even so, this was found to be inadequate, according to reports furnished by Water Superintendent John McMillan, who stated that last summer people living on the Peninsula were unable to secure water in the second stories of their homes, owing to lack of pressure. Mayor George Wilson augmented this statement by declaring that the same condition prevailed in East Newport, nearly a mile nearer the power plant.

The question of whether a bond issue would carry was brought up by Lew Wallace who cited the conditions existing on Corona del Mar. Wallace declared that at the time that section was annexed no effort was made to compel the new city additions to assume their share of the cost of the present distributing system, costing in the neighborhood of \$300,000, and that the people who do not reside in that section object to enlarging the system because it would be for the purpose of applying water to the newly annexed territory.

Suggests Separate District.
Trustee H. Cardozo Sloan then suggested that a separate assessment district be formed for Corona del Mar. This district would include a 24-inch wood stave pipe line along the county road to connect with the one recently laid at Fifteenth street and the installation of a booster tower and tank on Newport Heights, the cost to be about \$65,000. Trustee Sloan believed that such a plan would satisfy most of the objections to the water issue, with the rest of the board to get expressions from the taxpayers.

There was no question of the imperative need of a better and larger water system. Even should an election be called at once it would take six months before actual work could start, and the vote was favorable, according to Mayor Wilson, who also felt that the people should be given the matter at the earliest possible moment, in order that the decision to do one or the other was made by the voter.

The city engineer's estimate provide for a 3,000,000-gallon reservoir, the erection of a pumping plant, the purchase of four acres for a reservoir site, pipe lines through the city, an 8-inch line across the bay to serve the island and a portion of Corona del Mar, in addition to other equipment. A previous estimate, made several months ago, made a total of \$350,000, but by eliminating the purchase of \$24,000 worth of land the \$65,000 pipe line along the county road and substituting a 12-inch line, the reduction to \$225,000 was made without impairing the efficiency or adequacy of the present plant, it was asserted by Mr. Kressly.

The board decided to lay the matter over for two weeks while awaiting opinions from the public.

'PHONE EXCHANGE SOUGHT AT MESA

COSTA MESA, April 15.—A petition asking for a telephone exchange to be provided at Costa Mesa, or that the local telephone be placed in another zone will be approved by the chamber of commerce at its regular meeting Monday night at the bank building, it was intimated today.

The question has been under consideration for some time and will probably be brought to a head at the regular meeting of the organization Monday. Local people have recently objected to the high telephone rates. They claim that if the exchange were placed in the same zone with Newport Beach, rates would be nearly cut in half.

"The present cost of a telephone is prohibitive and the people cannot afford to have them in their homes," F. O. Ross, secretary of the chamber of commerce declared. He pointed out the phone service without toll calls cost \$3.50 per month here.

Reports of various committees will also be heard at the meeting. It is expected that steps will be taken to start a membership drive in the chamber of commerce soon. A special committee was appointed on the matter at a recent meeting of the chamber.

PELICANS BOTHER FISHERMEN; OPERATE TO REMOVE HOOKS

By HELEN LOCKWOOD COFFIN
NEWPORT BEACH, April 15.—The pelicans have come to town and are fishing off the Newport pier, to the consternation of the human fishermen. There are 15 or 20 in the flock and they are such experts at the sport that they are carrying off all the prizes in their capacious pouches.

The awkward and ungainly birds float around on the surface of the water, watching the business ends of the lines cast down from the pier. At the first sign of a nibble they get busy and when a fish really fails for the bait a pelican snaps him up—and down—and the man at the other end of the pole has no hand in his unproductive line and begin all over again. He usually says things derogative to the pelican.

Sometimes the joke is on the pelican. Occasionally he swallows the whole thing, fish, bait, hook and sinker, and is reeled in himself. Up and up he goes, protesting, and over the edge of the pier he falls. Then he is pulled back and starts in a major operation and has the hook cut out of his pouch. It seems neither to hurt him nor to teach him caution. Once relieved of the hook he is pitched overboard and as soon as he strikes the water he paddles around to his old hunting ground and begins where he left off.

A few of the pelican gang haunt the shore line, near where the fishing boats come in and the refuse is thrown to the gulls. They have reached a trade agreement with these official beach scavengers and whenever a pelican wishes to refresh himself, the leader shoos him and his fellows off their preserves and stand guard until the pelican is satisfied. A crowd of curious human sightseers watches this performance daily and wonders what magic of understanding and co-operation is in force.

They have no monopoly on curiosity, however. The pelicans are as full of wonder apparently as the humans are. And they seem to have no fear that deters them from gratifying their curiosity. One of them discovered the bench across from the postoffice the other day and sat down near it to wait for the Los Angeles car, as the other passengers were doing. He graciously accepted favors of popcorn and peanuts and passed the time of day courteously, agreeing that it looked like more rain. But when he heard the electric car coming, he changed his mind quite in a human fashion and went off over the bay on his own power.

LOAN ASSOCIATION INCREASES CAPITAL

FULLERTON, April 15.—Confidence in the fundamental soundness of financial conditions in Fullerton and district and an optimistic belief in a steady growth for the future, actuated the directors of the Fullerton Mutual Building and Loan Association when, at a meeting last night, they announced their intention of increasing the capitalization of the association from \$100,000 to \$500,000.

Stockholders of the association, H. L. Parry, secretary, stated this morning, will be asked to approve the increase and then application will be made for official permission from the State Building and Loan Association.

Mr. Parry declared that the company is approaching its present legal limit of \$100,000 and as an increase will soon be necessary it was thought advisable to make the new capitalization adequate to take care of the business for some time to come.

Practically all of the stockholders of the Association are local men, the following being the officers: L. L. Lottister, president, G. W. Finch, vice-president and H. L. Parry, secretary.

Take Up Naming Of Supervisor Of Playgrounds

ORANGE, April 15.—In sympathy with the move proposed last week by the Orange Lions club, toward establishing a summer playground for the school children of this city, the Orange Community Chamber of Commerce, upon the request of George C. Sherwood, superintendent of schools, today took steps toward naming a supervisor for the summer amusement center, should it be established.

A committee, appointed by Leon O. Whitell, president of the chamber, and consisting of E. E. Campbell, M. O. Ainsworth, Mr. Dian Gardner, Mr. Sherwood, met yesterday, and following a discussion as to the necessity of the proposed playground, named a committee of 20 members, to proceed with plans for appointing a supervisor.

The enlarged committee consists of E. E. Campbell, chairman; George Sherwood, M. O. Ainsworth, Mrs. Mabel Paulsen, Carl L. Thomas, D. Morrow, Frank Henderson, William Batterman, John Helmrich, Mrs. Clyde Watson, Mrs. Dian Gardner, Harry Hill, Frank Ainsworth, Miss Mildred Anderson, Mrs. Goetsch, Mrs. M. Squier, Mrs. Walter Herrington, Mrs. B. D. Stanley, Mrs. C. B. Harper, and Mrs. Ralph Woodford.

SAYS KLAN NOT CONCERNED IN BEACH RECALL

Justice of Peace Declares K-K-K Cry 'Smoke Screen' To Hide Real Issue

HUNTINGTON BEACH, April 15.—Declaring that the Ku Klux Klan has nothing to do with the recall situation in this city as a body, and that the cry of Klan has been raised by those who support the present governing body, to "cloud the issue," Judge C. W. Warner, justice of the peace, and one of the leaders of the recall movement, yesterday denied that he was in any way affiliated with the Invisible Empire of the Ku Klux Klan.

"I am not a member of the Klan and no one who has been working with me is a member of the Klan, as far as I know," Warner declared, adding that the recall was purely a movement of the citizens against the "high handed" procedure of city trustees. Warner was formerly city recorder of Huntington Beach, holding that position for ten years until his recent dismissal under fire from office by the board of trustees.

In a pamphlet printed for and circulated by the Taxpayers and Voters League, one of the city's affairs by a bonded municipal auditing firm is demanded by the league members. The booklet also explains in detail various reasons for the recall.

The first reason for the recall as given in the pamphlet is in part as follows: "First: The usual cry of 'Klan' of those opposed to law enforcement or, preventing enforcement, is raised. There is an epidemic in all gang controlled localities of Orange county which causes a certain element which we believe to be in a state of persecution, intimidation, graft and bootlegging to sound the cry in order to cloud the real issue."

Would Like to Hear Bulgin.
In their pamphlet the league charges that other reasons for the recall are: the examples set by deed and women daily, by act and deed, and that the city trustees refused to allow Rev. Bulgin, the use of the city auditorium.

Pamphlet also charges abuse and persecution of citizens who have appeared before the board of trustees by a member of the board. They charge that a trustee waited on the Standard Oil company and the E. K. Wood Lumber company here for the purpose of intimidating the company men against signing the recall. The little group calling itself the chamber of commerce does not represent the best interests of the city, the paper declares.

Seek Law Enforcement.
Other reasons, statements in question form, are given in the paper also, for the calling of a special election, although no names of trustees are mentioned. The paper closes with a plea for law enforcement. "We want the laws enforced. We want officers who will listen to the prayer of the humblest citizen as readily as he would to a bootlegger or a grafter," the paper states.

The pamphlet cites in closing that the Taxpayers and Voters League is permanently organized to advance the progress of the city and to secure dollar for dollar for the taxpayers' money. The organization does not take into consideration religious creed, or political party affiliations, it is stated. Amos Huston, chairman of the publicity committee of the league, has signed the paper.

TIRE THIEVES ARE BUSY AT OIL CITY

HUNTINGTON BEACH, April 15.—Automobile tire thieves were active in this city yesterday it was revealed by a report to the police by the Southern California Edison company officials that their warehouse had been entered and two tires taken. No clues were found by officers who investigated the theft.

One man was lodged in the county jail today and two others were released when they paid fines on charges of drunkenness.

F. J. McDonald, 29, of Long Beach, paid a fine of \$15 when he pleaded guilty to charges of drunkenness before City Recorder Harry Stewart. McDonald claimed to be a truck driver.

H. C. Espy, 23, of Long Beach, paid a \$25 fine on the same charge. He is a clerk and was arrested in company with McDonald.

H. Counts, 54, of this city, is lodged in the county jail where he will spend a 25-day sentence in preference to paying a fine of \$25. Counts was arrested two days ago and released when he promised never to touch liquor again. He is a plumber.

Martin Erickson, 32, a laborer from Chicago, was lodged in the county jail today on charges of vagrancy. He was arrested yesterday by local officers and was sentenced to 30 days in jail by Judge Harry Stewart.

Several traffic violators have also been arrested here during the past several weeks by Motorcycle Officer Elmer Parker.

Electronic Treatment Parlors (the Abrams method), commercial building, Sixth and Main streets, Santa Ana, Calif. Phone 1292W.

Fullerton M. D. Is Arrested On U. S. Charge

FULLERTON, April 15.—Trapped by federal agents, Dr. Francis Coltrin, physician of this city, was arrested and held to answer in the federal court, Los Angeles to a charge of violating the Harrison narcotic act. Bail was fixed at \$5000.

Dr. Coltrin is alleged to have supplied a "drug addict" with 20 grains of morphine for which the addict gave him \$25 in bills as payment. Federal agents testified that they later found the bills which were marked upon the physician. The doctor is asserted to have confessed to giving the drug to the man who had represented himself as on his way to Texas and "unable to get along without" the stimulant. He declared, however, that he refused to accept any pay from the addict but the man insisted and left the money on the table when he departed.

CALABOOSE AT LAGUNA BEACH HAS NEW HOME

LAGUNA BEACH, April 15.—After reposing, without prisoners, for many months on the Chamber of Commerce property at Park Drive and First avenue, the famous three-cell open air jail of Laguna Beach has disappeared.

There are rumors that the big tank has found a home somewhere in the Laguna canyon, but so far as the passerby is concerned, the Laguna Beach jail is no longer an eyesore. Civic pride and the need for more space for the proposed new Chamber of Commerce building resulted in the downfall of the famous bastille.

No longer will citizens distract the attention of visitors as they drive them by the Chamber of Commerce site, for a beautiful building, designed by Frank W. Cuprien, noted Laguna Beach artist, soon will rise and make Laguna Beach forget the nightmare that resulted from an appeal to the county for a place to lodge prisoners following the hiring of Howard D. Cox as deputy sheriff and the officer's spectacular raids on the bootleggers.

Following a night attack on Cox, during which he was shot from ambush, the police activities of the town dwindled down to the nightly duty of trying doors and an occasional rounding up of some ill-starred liquor peddler, who knew not of the Cox prowess. For six months, at least, the town prison has served only as the butt of jokes. Future offenders, if there be any, will be taken out of town by the back door, carried behind a screen of friendly trees and lodged in the six-ton tank, where he will wait justice far from the curious eyes of a passing populace.

With the passing of the jail will go the reminder of the days of stocks and whipping posts and dipping stools that fitted so ill into the town noted for its beauty and its colony artists.

At Grove Attract Aat Grove Attract

GARDEN GROVE, April 15.—A wholesome departure from the ordinary form of Easter Day exercises was featured at the Methodist Episcopal Church last Sunday. At the Sunday school hour after the lesson period the entire Bible School assembled in the main auditorium and a spirited "sing" reports were given by departments and organized classes on special Easter offering to apply on furnishing the rooms with adequate equipment for more efficient work. The offering amounted to \$529.01.

The session was followed by the baptism and christening of infants. Then came an Easter "Short-Service" by the pastor on "The Resurrection Fact," followed by the baptism of adults and reception of members. In all there were 18 baptisms. A class of ten children were formed into a probationers' class for special instruction in Bible doctrine and Christian life. Also ten older children were received from probation into full membership and 23 adults were received by Letter and on Confession of Faith, representing the five different denominations. The Chorus Choir furnished appropriate Easter music and in the evening rendered most effectively an Easter cantata, "Eastering Life" by Petri. The large auditorium was quite filled with the service with an appreciative congregation.

Army Planes May Fight Sugar Pest

HONOLULU, April 15.—Negotiations for army planes to "bomb" the sugar cane field of Hawaii with the preventive dust in the fight against the eyespots pest are in progress between headquarters of the Hawaiian department of the army and the Hawaiian Sugar Planters' association, and it is expected that the initial experience probably will be made within a few months. The work will be along the same lines as the method used in Texas and other states where airplanes have been used in dusting cotton fields to combat the boll weevil.

Dr. R. O. DuBois, Osteopath, Spurgeon Bldg. Special attention given children. Phone 844.

OLD RELIC AT NEWPORT BEACH WILL BE RAZED

Famous Gathering Place For Shipmasters to Be Sold at Auction

NEWPORT BEACH, April 15.—Keeping pace with the growth of the harbor district and at the same time marking the removal of an old landmark, was the action of the Newport Bath House company, at its annual meeting today in ordering the destruction of the old hotel and bath house that has stood on the Ocean front at Twenty-third street for 30 years.

This relic of another day, which has been the gathering place for ship masters in the nineties, is to be sold at auction, the date having been fixed for April 21. The house was built by James McFadden some 30 years ago. Between 1895 and 1907 it was famous up and down the coast as a resort where meals and dinners were the epicure's delight. Sea faring men in the lumber trade, who made this port in the old days, made it their stopping place.

For many years the finest eating place in Orange county and even in the days when horse and buggy were the only means of transportation, traveling men visiting Santa Ana, made the trip to old Newport to dine, while Santa Anans used it as a resort for dinner parties and evening affairs.

The old hotel saw the rise and fall of commerce through Newport harbor, and now it gives way to progress on the eve of the reconstruction and growth of an even greater commerce coming with the development of Newport bay. The site, covering more than a half block, is one of the best in the harbor area.

And now the property is to be wrecked and the land cleared to be made available for the erection of a modern hotel, which will probably be financed in another year.

EASTER SUNDAY IS ENJOYED AT PARK

TALBERT, April 15.—Quite a party of local people observed Easter at Orange county park to which resort they motored, enjoying there a chicken dinner served picnic style on the grass. An Easter egg hunt was the most important event of the day for the little folks.

Those from Talbert who enjoyed the picnic were Mrs. J. O. Harper, Miss Ruth Harper, Donald Harper, Mr. and Mrs. Harry Harper and son, Jack, Mrs. Frank Harper and son, Paul; Geo. Bartol, Josephine, Vanona and Raymond Harmon and the party was joined by Mr. and Mrs. Lon Smith and family of Norwalk, former residents here, and by Mrs. Frank Harper's small niece, Della May Ross of Santa Ana.

Give Birthday Party
The Misses Dora Davis and Lola Gilbert, whose birthday anniversaries fall upon the same date, celebrated the event by giving a party to which they invited a number of their friends.

An unoccupied house in town was secured for the evening, giving bounteous room for the playing of a variety of indoor games with which the hours were whiled away. Refreshments were served by the co-hostesses prior to the departure of the young people at the close of a glorious evening.

In attendance at the party were Roscoe Hensley, Irwin Davis, Willie West, Miss Dorothy Rogers, Miss Alpha Gilbert, Edwin Hathaway, Charles Johnson, Miss May Worthy, Miss Louise Ward, Mrs. Miss Helen Wardlaw, William Gilbert, David Chadwick, Alley Chadwick, Lavaguna Welch, Lewis Wells, Leo Bland, Udell Bland, Martha Wardlaw, Doyle Gilbert, Albert Peyton and the hostesses, the Misses Lola Gilbert and Dora Davis.

County Schools To Hear Operetta

FULLERTON, April 15.—Three presentations in as many different schools of the County will be made of the operetta "Miss Caruthers Returns" by the women's glee club of the local Junior College, before it is presented in the high school auditorium here on May 5 as part of the "Bible and Gold Week" program. Miss Helen Wisard, director of the operetta announced today.

The Santa Ana Junior College students will be the first to witness the delightful musical comedy, presentation there to be made April 22. Other schools to be visited are the Anaheim Union High school and the Excelsior High school, near Norwalk.

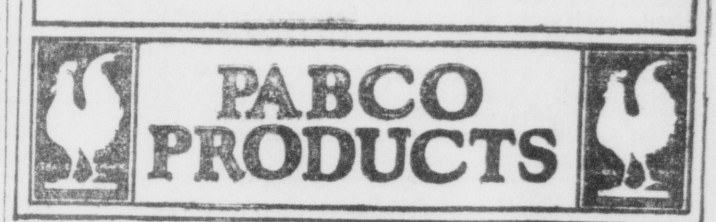

The cast, includes only girls and deals with the activities of a group of college maidens.

MALTHOID ROOFING - costs less

The cost of Malthoid Roofing is less than the cost of the paintings necessary on ordinary roofing.
Ordinary roofing must be painted every three years or it will leak and dry out—Malthoid Roofing need only be painted every ten years.
It's true economy to cover every roof with Malthoid Roofing.
